ARTICLE I - MANAGEMENT RIGHTS

1. The ASSOCIATION recognizes the prerogatives of the CITY to operate and manage its affairs in all respects in accordance with its responsibility and in the manner provided by law, and the powers or authority which the CITY has not specifically abridged, delegated or modified by other provisions of this Agreement are retained as the exclusive prerogatives of the CITY. Such powers and authority, in general, include, but are not limited to, the following:
 - a. To determine its general business practices and policies and to utilize personnel, methods and means in the most appropriate and efficient manner possible.
 - b. To manage and direct the employees of the CITY, to make assignments of jobs, to determine the size and composition of the work force, and to determine the work to be performed by the work force and each employee.
 - c. To determine the manner in which work is to be performed and the location where the operations of the CITY are to be conducted.
 - d. To take whatever action may be necessary in a situation which presents a threat to life, limb or serious damage to public or private property.
 - e. To suspend, demote, or discharge employees for cause.
 - f. To schedule overtime work as required in the manner most advantageous to the CITY and consistent with the requirements of the Police Department and the public interest.

2. The **ASSOCIATION** recognizes its responsibility to cooperate with the **CITY** to issue maximum services at minimum cost to the public consonant with its obligation to the employees it represents.
3. This Agreement shall be subject and subordinate in all respects, wherever the same may be applicable herein, to the provisions of the Charter of the **CITY** of Kenosha, the laws of the State of Wisconsin, and the Ordinances of the **CITY** of Kenosha, all of which are in effect at the time of the execution of this Agreement.
4. This Agreement shall be subject and subordinate in all respects, wherever the same may be applicable therein, to the general rules and regulations of the Department of Police, Kenosha, Wisconsin, all of which are in effect on the effective date of this Agreement and contained in Appendix "B" attached hereto.

It is further agreed that effective on the execution date of the 1981 Agreement, the general rules and regulations in effect on the effective date of this Agreement will be amended as provided in Appendix "C" attached hereto, provided, however, that the effective date of those rules and regulations included in Appendix "C" attached hereto will be stayed pending the resolution of their reasonableness, through the grievance procedure contained in this Agreement. The parties agree to submit this matter directly to arbitration as provided in Article IV(E) of this Agreement as soon as possible.

5. Effective 1/1/91:

The designated representatives for purposes of this subsection are the president and vice-president of the **ASSOCIATION**.
 - c. The proposed new or revised rule or regulation will be deemed reasonable and implemented as proposed by the **CITY** unless the **ASSOCIATION**, within the fourteen (14) day calendar period mentioned in paragraph b above, submits a written request to the Personnel Director to negotiate with the **CITY** on the proposed new or revised rule or regulation. If such written request to negotiate is made by the **ASSOCIATION**, the effective date of the proposed new or revised rule or regulation will be delayed sixty (60) calendar days from the original proposed effective date.

After the arbitrator is appointed, the parties shall agree on a hearing date as soon as is mutually convenient. The arbitrator shall have jurisdiction to rule on the arbitrability of the dispute, to issue subpoenas, to define the questions involved, to make rulings on procedure and evidence according to the equities of the situation, and to render a decision on the merits which will be final and binding on the parties. The authority of the arbitrator shall be limited to the above, and he/she shall have no authority to add to, detract from, or amend the Agreement. The costs and expenses, if any, of such arbitrations shall be shared equally by the **CITY** and **ASSOCIATION** except that each party shall pay its own witness and attorney's expenses.

The Administration shall assign each employee a shift which designates the starting time and the quitting time. This shall be the employee's permanent shift. The Administration shall have the privilege of changing an employee's shift upon reasonable explanation for a minimum of two (2) scheduled work weeks with advance notice of at least one (1) week. The one (1) week notice shall be waived in the event of an emergency.

For purposes of this section, "emergency" is defined as that situation which presents a threat to life, limb or serious damage to public and private property. This section shall not be abused to the extent that shift privileges accorded seniority employees in a given classification would be lost.

In the event an officer is subpoenaed to attend court in another state and will be gone for more than two (2) days, and the travel has been approved by the Administration that officer shall be assigned to a nine (9) hour tour of duty with a one (1) hour non-paid lunch period. The officer shall remain on his/her current shift rotation and shall be paid at an overtime rate should the time in court exceed the tour of duty or the officer is attending court on his/her while regularly scheduled off day.

Section 4. Shift Changes - In the event a vacancy occurs in the classification of Police Officer, Police Canine Specialist, Detective, Court Officer, or Traffic Officer on any particular shift (first, second, third or other), said vacancy shall be filled in the following manner, if there are other employees in same classification involved in the vacancy who desire to fill the vacancy: the highest seniority employee on the other shifts in the same classification involved in the vacancy will be asked first and in the event this member refuses to fill the vacancy, proceed down the seniority roster in that particular classification until the vacancy is filled. (This provision does not apply to detective or court assignments.) For purposes of this section only, a Police Canine Specialist will be included in the Police Officer seniority list for filling of vacancies in a Police Officer position (nothing in this section shall be construed to abrogate the time commitment agreement entered into by a Police Canine Specialist).

ARTICLE VIII - LONGEVITY

SECTION 1 - In addition to the compensation provided herein for the employees in the bargaining unit, the CITY shall pay each employee five dollars (\$5.00) per month after five years of service, ten dollars (\$10.00) per month after ten (10) years of service, fifteen dollars (\$15.00) per month after fifteen (15) years of service, twenty dollars (\$20.00) per month after twenty (20) years of service, and twenty-five (\$25.00) per month after twenty-five (25) years of service. Longevity increases shall be effective on the first of the month following the anniversary date and shall be paid on the last day of the month.

SECTION 2 - Employees hired on or after January 1, 1992 shall not be eligible for longevity payments.

Police Officer Longevity Compensation

Effective January 1, 2020, any member in the department classified as police officer shall receive a 1% increase in pay upon reaching their 10 year anniversary date. For those employees classified as police officer who reach their 20 year anniversary date shall receive

an additional 1% increase in pay. Said pay is for the duration of appointment as a police officer.

As it respects eligibility for the aforementioned wage increases, any employee who has 9 or more sick leave occurrences within a calendar year, will not be eligible for any increase for the following year under this provision. Suspension of said wage increase will be lifted upon the employees year-end calendar sick leave falling below 9 occurrences. The reinstated increase will be effective January 1 of the following year.

Detective Longevity Compensation

Effective January 1, 2013, any member in the department classified as detective, court officer, or forensic examiner shall receive a 1% increase in pay upon reaching their 10 year anniversary date. For those employees classified as detective, court officer, or forensic examiner who reach their 20 year anniversary date shall receive an additional 1% increase in pay. Said pay is for the duration of appointment as detective, court officer, or forensic examiner.

As it respects eligibility for the aforementioned wage increases, any employee who has 9 or more sick leave occurrences within a calendar year, will not be eligible for any increase for the following year under this provision. Suspension of said wage increase will be lifted upon the employees year-end calendar sick leave falling below 9 occurrences. The reinstated increase will be effective January 1 of the following year.

ARTICLE IX - OVERTIME

SECTION 1- The CITY agrees to pay in cash for overtime work at the rate of one and one-half (1-1/2) times the average hourly rate of the employee's overtime. Overtime is any time worked in excess of eight (8) hours per day or forty (40) hours per week. Overtime worked at the end of an employee's shift shall be rounded off to the nearest one-half (1/2) hour.

Section 2 - Court Time. The CITY shall pay time and one-half (1-1/2) for all off-duty time spent in court on CITY and State cases and in private civil suits where such appearance is directly related to the performance of duty with a minimum of two (2) hours overtime pay, (three [3] hours straight time pay) for a court appearance. In the event of more than one (1) court case in any one (1) day, the minimum shall apply only to the first court appearance of the day. Subsequent appearances on that day shall be paid on the basis of actual time involved. Overtime in court will be rounded off to the nearest half hour.

The CITY shall not pay witness fees for employees appearing on CITY or State cases or in civil suits. In the event an employee is subpoenaed to appear in a private civil suit during working hours, he shall turn in any and all witness fees received and shall be paid at his regular rate of pay for such duty day. Provisions relative to civil suits shall not apply in litigation wherein the employee is one of the parties to the litigation.

In the event a court case or any other overtime is scheduled at or near the end or less than two (2) hours before the beginning of an employee's tour of duty, this court time or overtime shall be a continuation of said employee's tour of duty and the two (2) hour minimum shall not apply.

Section 3. Call-In Pay. A minimum of three (3) hours compensation at time and one-half (1-1/2) is guaranteed to an employee who is requested to and returns for duty at a time when he/she would otherwise not have to be on hand. Overtime will be rounded off to the nearest one-half (1/2) hour.

Whenever practical, overtime hours within divisions and further separated by shift will be assigned on a seniority basis. This provision shall not apply if the overtime need was created one (1) hour or less from the starting time of the assignment. The shift commander or their designee of a shift in need of manpower, whether that manpower is needed to supplement manpower requirements of that shift or for a special assignment, will attempt to contact the officer with the greatest amount of seniority and offer the assignment to that person. The shift supervisor will continue through the roster of the officers assigned to the shift in need of additional manpower, starting with the officer with the greatest amount of seniority and working to the officer with the least amount of seniority, until sufficient manpower has been located.

If sufficient manpower cannot be located from the officers assigned to that shift, the assignment will be offered to officers assigned to other shifts, with the supervisor attempting to utilize the seniority structure of the Kenosha Police Department, starting the officer with the greatest seniority and working towards the one with the least. However, in doing so, consideration must be given to the time of day and the needs of the department. (Overtime for special events, as designated by the Chief of Police, will utilize the seniority structure of the KPD, starting with the officer with the greatest seniority and working towards the one with the least until sufficient manpower has been located.)

This provision will not mandate any waiting period or require that the supervisor leave a message if he/she can not speak with the officer directly. This provision will not be in effect when an emergency situation exists or during special assignments such as grant-funded activities.

For the purpose of this section, "Call-in" does not include time spent performing background investigations. Said investigations require flexibility and task of short duration. An employee assigned to do a background investigation will be compensated for actual time worked.

For the purpose of this section, "Call-in" does not include time spent on City or Department business outside the employee's normal work hours if such work is scheduled more than 14 calendar days prior to the work being commenced. Work performed with advanced notice qualifies for a minimum of 2 hours compensation; if less than 14 days notice is provided, the minimum of 3 hours of compensation time will be paid.

SECTION 4. Employees may utilize compensatory leave at anytime prior to November 30th of each year so long as the leave balance is not reduced to an amount less than zero. Subsequent overtime earned will again be applied to the employee's compensatory leave balance at the aforementioned rate until reaching 45 hours and paid thereafter. The employee's compensatory leave balance in effect at the close of business on November 30th of each year shall be paid at the employee's rate in effect on that date. Compensatory time checks will be paid by December 15th of each year. For purposes of interpreting this section, a year begins on December 1st and ends the following November 30th.

Such compensatory leave may be used at such time as may be approved by the Chief of Police or his designee consistent with the needs of the department and such compensatory leave shall not be granted when the result would, in the sole opinion of the Chief of Police, be inadequate protection for the CITY. For purposes of interpreting this section, a calendar year begins on December 1 and ends the following November 30th.

Distribution of overtime throughout the year will be the responsibility of the Chief or a designated subordinate. The Chief or a designated subordinate shall post on the tab a quarterly report of all overtime worked, which employee or employees worked said overtime, and the amount of hours worked by each. Overtime hours within the divisions shall be divided as equally as possible, except that the Chief or his designated subordinate can assign overtime to particular classifications without regard to equal distribution between the divisions if such assignment requires specialized knowledge or skills.

Section 5. Field Training Officer. Those employees assigned as Field Training Officer shall receive a minimum of one (1) hour of paid overtime in order to complete Daily Observation Reports.

These holidays are paid holidays whether they fall on an employee's workday or day off. New Year's, Easter, Independence Day, Labor Day, Thanksgiving and Christmas shall be incorporated into the day off schedule of each employee working the 4-2 and 5-2 work schedule. Christmas Eve, New Year's Eve, Memorial Day and Good Friday, Juneteenth and Martin Luther King Day shall be compensated for in the following manner: Each employee be granted a working day off after the holiday has passed, except that as to Memorial Day, every employee who is a veteran of the Armed Services shall be

entitled to this day off, but in the event this day falls on an employee's scheduled workday and said employee cannot be spared for this day off and said employee does not wish to have this day off, the employee shall be compensated with one (1) day off at a later date.

Each employee shall be eligible for one (1) floating holiday per year in addition to the above holidays. Such floating holiday may be used at such time as may be approved by the Chief of Police or his designate consistent with the needs of the department.

Employees shall not be permitted to carry more than ninety-six (96) hours of accumulated holiday time off beyond December 31 for all leave accumulated in or before 2023.

Effective January 1, 2024, employees shall not be permitted to carry more than one hundred four (104) hours of accumulated holiday time off beyond December 31 of each year.

ARTICLE XI - VACATIONS

Section 1. Annual Leave. Employees who have completed the required number of years of continuous service shall earn annual leave for each month of employment during which they work at least half of their scheduled workdays in accordance with the following tables based on anniversary dates of employment. For purposes of this Section, time paid for shall be considered time worked.

Continuous Years of Service	Days per Year	How Accumulated

On January 1 of each year, employees shall be credited with their full annual leave accumulation for that year based upon the above table. It is mutually understood and agreed that such accumulation is an advance credit and any employee who leaves the service of the CITY during a year for any reason, except death, shall have his/her vacation accumulation prorated for that year and that any such employee who has used more leave than the prorated amount shall be liable to pay the CITY, in cash, for all such additional time off. It is further mutually agreed that the CITY is authorized to deduct such payment from the employee's paycheck if necessary.

SECTION 2. The vacation periods shall be selected with the highest classification seniority selecting first and then proceed in this manner to the lowest seniority member in each classification.

Vacation selections shall be made from January 1 to April 1 each year. Vacation days can be used one (1) day at a time in accordance with prior procedure. All vacations shall be scheduled taking into consideration the needs of the department.

Any language in this Article or Agreement in conflict with such right or prohibition shall be governed by the provision of state law and not this Agreement. The parties agree that in the event that final adjudication of the meaning and application of 111.70(4)(mc)6 determines that any provision relating to health insurance plan design in the prior agreement that has been deleted as a result of the City's interpretation and application of 111.70(4)(mc)6 is a mandatory subject of bargaining they will immediately commence negotiations regarding any health insurance plan design issues as are within the scope of the duty to bargain.

C. Employee Hospital Audit Bonus. The city will pay to an employee an amount equal to 50% of the savings, up to a maximum of \$500 per year realized by an employee's discovery of an error or errors in hospital bills other than mathematical errors. An officer is eligible for benefits under the provisions of this paragraph if the officer suffers from the cumulative mental health effects of his/her profession in law enforcement to the extent that their continued employment as a police officer may compromise the safety of themselves or other individuals. An officer may apply for said benefit through a written request to the Police Chief. If the request is approved, the City will schedule an Independent Medical examination for the sole purpose of determining whether the officer's mental health is such that continued employment as a police officer would compromise the safety of the officer or other individuals. Upon receipt of the exam findings, a 3 person panel consisting of the City Administrator, Director of Human Resources and Police Chief will make a final determination of benefit eligibility. Each request will be determined on its own unique facts and will not be treated as a precedent nor eligible for grievance appeal. Upon reaching the age of 53, said qualifying employee will be eligible for health insurance coverage under the terms of the collective bargaining agreement.

The City will contribute an amount up to the subscriber cost for single enrollment in the least costly plan offered to City employees. Should the employee wish to enroll in a more expensive plan, the employee shall pay to the City the difference between the two plans. - E. The cost of living adjustment shall be made either up or down based on the changes listed above, but no decrease shall result in a reduction of the wage rates listed in Appendix A of this agreement.
- F. The above cost of living adjustments shall be considered a fund separate from wages or salary and shall not be used to calculate salary, wages, overtime or other benefits or payments of any kind which are based on employees' compensation or wage rate.
- G. Effective December 31, 1984 and December 31, 1985, the cost of living adjustment in the fund, rounded to the nearest dollar, shall be applied to and made a part of the base wage or salary for each classification and shall be eliminated from the fund.
- H. In the event that the Bureau of Labor Statistics does not issue the appropriate index on or before the beginning of one of the pay periods referred to in paragraphs C and D, the adjustments listed above shall be made at the beginning of the first pay period after receipt of the Index. Continuance of the cost of living adjustment shall be contingent upon the availability of the Index in its present form, unless otherwise agreed upon by the parties. If the form or basis of calculating the Index is changed, the parties agree to ask the Bureau of Labor Statistics to make available, for applicable periods during the term of this agreement, an Index in the form and calculated on the same basis as the Index listed above.

If the Bureau of Labor Statistics is unable or unwilling to supply the applicable Index described above, both parties shall negotiate a system by which the cost of living adjustment will be maintained.

APPENDIX D

SIDE LETTER OF AGREEMENT ON DENTAL COVERAGE

The CITY and the KENOSHA PROFESSIONAL POLICE ASSOCIATION agree to the following terms of a Side Letter of Agreement regarding dental insurance coverage for the 2023-2025 collective bargaining agreement.

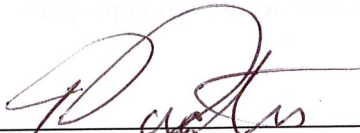

Under the 2004-2006 collective bargaining agreement between the parties, the City was not required to provide dental coverage. Dental insurance was available for employees under the Partners Health Plan, which was not covered by the collective bargaining agreement, but was an alternative health plan available for City employees. The City discontinued the Partners Plan effective December 31, 2006. Since that time, City employees have health insurance available through United Health Cares' Choice Plus Plan. Further, the City has continued to maintain the prior dental coverage which is now provided for all bargaining unit employees.

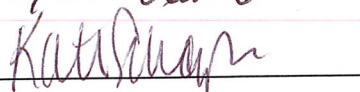

The City and the Association agree that the City will continue the current dental coverage for the term of this agreement. Provided, however, that the City may change carriers and/or coverage during the term of this agreement provided the coverage provided is generally comparable to the coverage provided under the current dental plan and at a cost not to exceed the City's cost with Dental Associates. The City agrees to meet and confer with the Association prior to implementing any change in carriers or coverage.

This Side Letter of Agreement will expire on December 31, 2025 and may only be extended by mutual agreement of the parties.

Dated this ___ day of _____, 20__.

FOR THE CITY

POLICY AND PROCEDURE

ATTENDANCE MONITORING AND CONTROL

Statement of Policy

The City of Kenosha Police Department grants leave with pay to qualified employees to enable them to take time off from work to conduct their personal affairs. The City also provides paid sick leave to qualified employees to enable them to take time off from work when they sustain an incapacitating injury or illness. Paid sick leave is not a supplement to other paid leave and it shall not be used in the absence of an incapacitating injury or illness.

Unscheduled leave has a disruptive effect upon the operations of the City, in that it makes it difficult to effectively schedule work and equitably distribute the workload. In order to deliver municipal services to the community on a timely and efficient manner, it is the goal of the City to maintain a stable workforce and to schedule work in the most efficient, effective and equitable manner possible. To achieve this goal, it is herein declared to be the policy of the City that employees are responsible for making themselves available for work on a reasonable and regular basis. Employees who fail to make themselves available for work on a reasonable and regular basis are subject to progressive discipline up to and including termination of employment.

Definitions

The following terms shall, for the purpose of this policy and procedure, have the meanings provided below:

1. Incapacitating injury or illness shall mean an injury or illness, which, based upon reasonable medical certainty, justifies an employee's absence from work for the well-being of the employee and/or employer.
2. Occurrence shall mean a consecutive period of hours or days absent from work, whether paid or unpaid, regardless of duration, for any reason, except jury duty, union activity authorized under a Labor Agreement, compensatory leave, annual leave, floating holiday or other approved leave of absence which is properly authorized in advance.

Calling In

Employees who are not excused from work in advance of the scheduled reporting time are required to promptly call the Department Head or designee thereof prior to the normal starting time on any day should he/she be late for work, or should they be absent from work for all or part of one (1) or more scheduled workdays. Employees and persons calling in on behalf of employees must provide their name, the reason for the absence or late arrival, the expected time of arrival or return to work, and the address and telephone number at which the employee can be reached. Employees shall be subject to disciplinary action for non-compliance. Nothing in this section shall be construed to prevent a department from continuing to use or implementing alternative call-in procedures.

Attendance Monitoring - Responsibility

The Department Head shall be responsible for uniform enforcement of this policy and procedure with respect to their employees, including the monitoring of the attendance of employees, notifying employees when they are suspected of not making themselves available for work on a reasonable and regular basis, issuing appropriate warnings, and for the taking of or recommending appropriate disciplinary action.

Monitoring Period

Attendance shall be monitored during a base period which is identified as the previous calendar year. Reviews shall be conducted as soon as practical after January 1st, following the base period.

Attendance Monitoring - Procedure

1. The Chief, or designee, shall review the sick leave usage reports of his/her employees for the purpose of identifying those employees having the greatest 10 number of occurrences and those 10 employees with the greatest number of sick leave hours used, during monitoring period.

Employees identified as being in one of the above two categories during the monitoring period, shall have each day of sick reviewed to determine whether the utilization of sick leave exhibits any of the following traits or characteristics:

- a) Occurs frequently and is of short duration;
- b) Falls before or after other days off;
- c) Falls on the day before or day after a paid holiday or other authorized paid leave time;
- d) Occurs when all paid leave is exhausted;
- e) Occurs when there is no incapacitating injury or illness;
- f) Long term sick leave. (For purposes of the Attendance Monitoring and Control policy a long term sick leave will be considered 30 calendar days or more)

After completing the review and summarizing the results, the Department Head and/or their designee shall meet with the employee and discuss the leave usage problem. The summarized information should be presented to the employee and he/she should be given the opportunity to explain any special or extenuating circumstances that would account for the high level of leave usage. If the absences can be documented to the satisfaction of the Department Head, then no further action need be taken, except that the reasons for the absences, the summary data, and the prospect for future occurrences of a similar type should be documented. This information should be retained by the Department Head with a copy to Personnel.

Written Reprimand

If a satisfactory explanation cannot be provided, then the employee should be informed that they are considered to be a "sick leave abuser" and that they must take immediate action to improve their attendance record. The employee should also be informed that continuation of the utilization problems or pattern of sick leave usage will result in reduction in pay and possible termination. A copy of the written reprimand shall be placed in the employee's personnel file detailing the meeting and requirements being made. A copy shall be forwarded to Human Resources.

Pay Step Reduction

An employee, who has been identified as a "sick leave abuser" and for the previous calendar year (base monitoring period) given a written reprimand for that monitoring period and in the subsequent monitoring period is again determined to be a sick leave abuser shall have their current pay step reduced two pay steps.

Any reduction in pay shall not go outside of the employee's current job classification.

After the succeeding monitoring period, an employee who was reduced in pay and who is no longer identified as a "sick leave abuser" shall be eligible to advance to the next step of the pay scale from where they were reduced to.

Termination

If the pattern of sick leave abuse is identified for a 3rd consecutive year, the employee shall be subject to termination.

Sick Leave Abuser Recurrence

For an employee who has been determined to be a sick leave abuser, the employee's use of sick leave will be monitored over a rolling 5 year period. An employee who is a sick leave abuser for any 3 of the prior 5 years shall be subject to termination.

This agreement will expire on December 31, 2022 and may only be extended by mutual agreement of the parties.

Appendix H

NOVEMBER 12, 1988

POLICY

Effective January 1, 1990

SUBJECT:

Chemical Screening

TO: Sworn Personnel - KPPA

PURPOSE:

The Administration of this department recognizes that throughout today's society, the use and abuse of alcohol, narcotics, drugs, and prohibited controlled substances is widespread. As such, it is deemed only appropriate that the department be concerned with these issues within its workplace. The concern here is the employee who reports for duty or while on duty is under the influence of these substances. The employee is entrusted with the duty to protect the community as well as their use of police vehicles, armed with a lethal weapon requiring decisions on its use, and in brief all instances of safety risks. For the purpose of this policy, the department's concerns are such that it is of paramount public interest to protect the public by ensuring that its police officers and communications personnel are fit for duty.

OBJECTIVES:

An employee's being under the influence of chemicals while in the workplace cannot only affect him/her individually, but the citizens he/she serves as well as his/her peers who may depend upon their assistance at a moments notice. The impact here is broad in scope and carries with it possible civil and criminal liability for the individual, as well as civil liability for the department and the City of Kenosha. It is our posture that positions of "police officer" mandate that they have a high degree of alertness and physical and mental capabilities at all times. As such, the safety of the public and other employees within the workplace outweighs individual interests to refuse chemical testing based upon reasonable individualized suspicion.

The intent of this policy and the testing stated herein are not simply to identify an employee with a problem(s) as it relates to this subject matter, but to correct the problem constructively. This theme is carried in the policy from the Entry Level, through all ranks, promotions and in the Narcotics and Vice Assignment. One might say "why test a person just because they are being promoted?" A person being promoted from Patrol Officer to

Detective or Captain to Chief of Police is being placed in a more responsible position and his/her credentials should be such that nothing in the way of chemical influence affect his/her credentials, nor that of the department as a whole. The department and the community should have comfort in knowing that the employee is free from elements that would not only affect his/her work, but his/her interaction with groups, some in life or death judgments. These factors in conjunction with "Testing based upon Reasonable Individualized Suspicion" are seen as a viable tool in not only dealing with this subject matter, but in strengthening the entire department.

It is for these reasons that the Administration views chemical screening as an integral part of its concerns for the public we serve and its employees. However, it also recognizes the individual's reasonable expectation of privacy from unreasonable intrusions by his/her employer. In balancing these two issues, it is our intent to act in these matters only based upon "reasonable individualized suspicion" for all employees. The exceptions to the preceding statement are covered under Entry Level Screening, Promotions and Special Assignment.

DEFINITIONS OF TERMS USED:

Inclusive of the foregoing is Chapter 161 of the Wisconsin State Statutes for definition purposes.

Reasonable individualized suspicion shall be based on objective facts that the employee is using or is under the influence of a chemical in the workplace based upon the observations and investigation of two (2) supervisors who have completed supervisor awareness training as set forth in this policy. (It is the Administration's position that performance is affected by an individual being under the influence of chemical substances within the workplace.)

A subsequent screening shall be required of all new employees prior to the completion of his/her probationary period. Refusals or confirmed positive tests may invoke immediate dismissal from the department. (See Form C/S 87-1)

A successful applicant for any promotion shall be required to submit to a screening as part of the promotional process. Refusals or confirmed positive tests for alcohol, non-prescribed illegal drugs, or prohibited controlled substances shall be dealt with as prescribed by the Chief of Police. A confirmed positive test may remove the applicant from being eligible for that promotion. (See Form C/S 87-4)

SPECIAL ASSIGNMENT: (Administered without Notice)

Sworn personnel assigned to the Narcotics and Vice Assignments shall be required to submit to a chemical screening at the direction of the Chief of Police when entering the unit. This is to maintain the integrity of the unit, its personnel, and the department as a whole. Prior to accepting a special assignment, an employee shall execute a written agreement (See Form C/S 87-2) stating that he/she consents to any medical, physical, psychiatric, psychological, or other testing as it relates to use/abuse of any chemicals, including urine and/or blood for drug or narcotic substances where reasonable individualized suspicion exists as related to his/her duties within this unit. This Agreement will expire upon completion of the Special Assignment and only used where actual concern for the officers well-being exists while assigned to this unit.

Refusals or confirmed positive tests for non-prescribed illegal drugs, abused prescribed drugs, or prohibited controlled substances may require the removal of the officer from the unit and shall be dealt with as prescribed by the Chief of Police in accordance with the other provisions within this policy.

TESTING BASED UPON REASONABLE INDIVIDUALIZED SUSPICION: (Administered without Notice)

The two (2) observing supervisors shall consider, but not be limited to the following factors in making a determination whether reasonable individualized suspicion exists:

- A) Obvious impairment, odor of intoxicants, speech, and appearance
- B) Performance problems, acts and/or omissions
- C) Change in behavior or loss of judgment
- D) Accident or injury prone

Prior to proceeding under this section, supervisors are advised that no third party observations or claims shall warrant the supervisors to immediately proceed with testing of an employee. Any employee can enact this process through a non-involved supervisor where the employee has a reasonable basis to believe that another employee is illegally using drugs/narcotics or is or has been under the influence of a chemical while in the workplace. ONLY the personal observations and/or investigation of two (2) supervisors shall collectively warrant a testing. This statement is aimed at supervisors who gain knowledge of an employee "possibly" being under the influence of a chemical while in the workplace from another employee or citizen. It mandates the supervisor to conduct his/her investigation with another supervisor acting as a team and reaching a decision together as to circumstances and facts warranting a testing. All observations and the investigation shall be documented by the supervisors on the Supervisory Report "Chemical Testing Based Upon Reasonable Individualized Suspicion." Immediately prior to any testing based upon reasonable individualized suspicion, the supervisors shall issue to the employee a written advisory (See Form C/S 87-3) stating the requested test is based upon causes briefly defined

therein. The involved employee shall sign and date said advisory as will requesting supervisors, the latter providing copy of same to the investigated employee. Supervisors and employees alike are reminded that unusual behavior on the part of another person can be caused by a number of reasons totally unrelated to chemical influence in the workplace. Some examples are personal problems or those involving the employee's family, medical condition/reasons, job stress or related problems, and financial problems.

Screening shall occur only when two (2) supervisors determine that reasonable individualized suspicion exists that an employee is using or under the influence of a chemical in the workplace. Reasonable Individualized Suspicion shall require the employee to submit to a chemical analysis of his/her blood, urine and/or breath at the department or a medical site as selected by the Kenosha Police Department. (All blood shall be drawn at a medical site). If required, the employee shall sign a consent form for the purpose of obtaining the specimen of blood, urine or breath, and the release of the results to the Kenosha Police Department, namely the Chief of Police or his/her authorized designee. By signing the consent form, the employee does not waive any claims or cause of action on his/her part as permitted by law or contract agreement currently in effect.

Refusal to provide the required specimen(s) will constitute a presumption of being under the influence of a chemical by the involved employee who may be subject to dismissal or action as prescribed by the Chief of Police. The previous statement applies to all employees. It is recognized that under certain conditions an employee may be unable to provide a urine specimen. Under these conditions, the supervisors) shall wait a reasonable time, but not to exceed one (1) hour and attempt to obtain a urine specimen again. Should the employee still be unable to provide a urine specimen, the supervisor(s) may terminate that effort and proceed to obtain a blood specimen. Results shall be based upon that specimen alone. All specimens obtained shall be immediately sealed/labeled/initialed/date and time affixed in the presence of the tested employee. All test results shall remain the property of the City of Kenosha Police Department, who shall be responsible for all costs incurred for required tests.

Where an employee is relieved of duty under the provisions of this policy, the supervisors taking said action shall also be responsible to convey the employee to his/her residence or release them to a responsible party after taking said action.

In the event an employee desires to have his/her specimen of blood and/or urine re-tested because of a positive test, they shall do so at his/her own expense at a laboratory of his/her choice. However, they shall have access to only one-half (1/2) of the remaining portion of the specimen in the custody of the Department's testing facility. **THERE SHALL BE NO EXCEPTIONS TO THE FOREGOING PROVISION.** Release for re-testing requires written notice to the Chief of Police, who shall authorize the testing facility of the Department to release a portion to the laboratory of the employee's choice. Said employee shall be responsible for his/her chain of evidence and all costs involved in the transfer of specimen by the City's laboratory.

RANDOM DRUG TESTING PROCEDURE:

(Administered without notice)

Sworn personnel will be tested during 2008 and beyond. The testing facility of the Department will place all personnel in a number generated computer software program (by social security number) and generate 7 numbers, plus (1) alternate, per month for testing. The numbers would be matched to the personnel, who would report for testing on their first available work day (Monday-Friday) after testing date selection.

Those personnel who are selected for random testing will be notified by a shift supervisor on the day that they are to be tested. As such, the individual must report to testing facility within a 1 hour time period of having been notified unless authorized to the contrary.

If the individual refuses to cooperate during the collection process (e.g. refusal to provide an initial or complete specimen, complete paperwork), the collection site person shall inform the City who will investigate as appropriate. Personnel are expected to exercise good faith and cooperate during the collection process and failure to do so will subject the individual to discipline, independent and regardless of the results of any subsequent drug test. Any personnel required to provide a urine sample will be expected to complete any necessary forms required by the collection site or the City, including those authorizing the disclosure of test results to the City. Employees who refuse to cooperate will be disciplined on the basis of insubordination.

All urine specimens will be tested for the use of the following controlled substances; marijuana metabolites, cocaine metabolites, opiate metabolites, phenocyclidine, and amphetamines. In the event of a positive test screen, a split sample test will be performed. If confirmatory test results are negative, all samples shall be destroyed. If the Medical Review Officer determines there is no legitimate medical explanation for a confirmed result other than the unauthorized use of a prohibited drug, the original sample must be retested if the employee makes a written request within 72 hours of receipt of the final test result from the MRO. The retest will be at the employee's expense, unless the retest is negative, at which time the employee will be reimbursed for their cost.

PRESCRIPTION AND NON-PRESCRIPTION DRUGS/MEDICATION:

Employees who are required to take prescribed medication shall notify their immediate supervisors of any prescribed medications that may affect the motor skills of the individual. This information shall be held confidential by the immediate supervisors) of that employee. Any statutory defined illegal use or possession of drugs/narcotics by an employee will not be tolerated and may result in termination proceedings. Any employee required to take a chemical screening shall advise or note upon the testing form that he/she is or has taken within the past 72 hours prescription or non-prescription medication, if this is a fact. THIS INFORMATION SHALL BE PROVIDED PRIOR

TO ANY TEST OR SCREENING PROCESS. WRITTEN VERIFICATION OF LAWFUL POSSESSION/USE AS RECOMMENDED BY A DOCTOR OR THE MANUFACTURER SUPPLIED THE EMPLOYER WITHIN 48 HOURS AFTER TESTING. It is for this reason that all employees are encouraged to keep a record of any medication he/she may be using during the course of two years. The Administration shall require its employees who are tested to provide evidence within 48 hours that all prescription medication was lawfully obtained through a person authorized by law. Any employee using another person's prescription medication shall be deemed to have illegal possession if the substance is controlled by law, and subject to disciplinary proceedings, prosecution, or as otherwise prescribed by the Chief of Police.

If the employee is using medication in accordance with the prescription given by his/her physician or in the manner prescribed by the manufacturer in the case of non-prescription drugs, there shall be no disciplinary action by the department. However the involved employee may be withheld from the workplace until such time as he/she presents the department with written documentation that he/she consulted his/her physician, who has corrected his/her prescribed medication or non-prescribed medication being used to resolve the impairment problem. This section pertains only to cases of a confirmed positive test of an employee relevant to chemicals as defined under Definitions.

BLOOD AND/OR URINE SPECIMENS.

All blood specimens shall be drawn in a medically approved manner by a trained, qualified person under medically approved conditions. All urine specimens shall be obtained in a manner that provides integrity of the specimen, concern for the employee, and under conditions that will not subject the employee to adverse reactions by their peers or other employees. Only sterile vials provided by the department's laboratory for urine or as provided by the medical facility for blood shall be used for specimens. (Supervisors - see chemical Screening Requisition Form (Form C/S 87-4))

All test specimens obtained shall be witnessed by the supervisors requiring same unless the employee is of a sex different than that of the supervisors. In that case, the supervisor shall have a person of the same sex as the involved employee witness same. This may be a department supervisor or a medical person chosen by the department supervisors. The supervisor(s) shall retain the specimen until it is turned over to the testing facility by an approved method. All supervisors or those witnessing the obtaining of the specimen shall immediately seal, label, and initial the vial(s) including the date/time of the specimens in the presence of the tested employee, who shall be identified by a code number only. This information shall be made part of the supervisors, reports in this matter.

The Administration of this department is prepared to defend its procedures and tests utilized by expert testimony if needed.

Employees electing to have a re-test of his/her specimen are strongly urged to be prepared to also

present expert testimony on his/her re-test and procedures if needed.

SPECIMEN AMOUNTS REQUIRED,

A minimum of 60 MILLILITERS OF URINE and/or a minimum of 20 MILLILITERS OF BLOOD shall be required for Chemical Screenings from each involved employee. These requirements will afford sufficient amounts of the specimen for department testing and that of an employee should he/she desire a re-test.

BREATH ANALYSIS:

The supervisor(s) may in "Chemical Testing based Upon Reasonable Individualized Suspicion" utilize both the Preliminary Breath Test and/or the Intoxilyzer as appropriate in his/her investigation. Should these devices be used, the supervisor(s) shall document the results within his/her final report. All testings done shall be in accordance with accepted procedures and shall not be in and of themselves sufficient to warrant a testing. Levels of .05% or greater while on duty with supporting impairment factors would warrant a testing of the employee.

APPROVED SPECIMEN FORWARDING:

All sealed and labeled BLOOD and/or URINE SPECIMENS obtained under this policy shall be conveyed to the approved laboratory by the supervisor(s) or as designated by the Chief of Police if the laboratory is local or transported via the U.S. Postal Service under certified mail, bonded courier, or laboratory courier service if not local. A receipt shall be required from any service used for specimen conveyance to the laboratory. To insure confidentiality of the tests (screenings), any and all labeling of a urine or blood specimen shall include the employee's number only. (Also see Form C/S 87-4)

APPROVED TESTING FACILITY:

The facility utilized by the Kenosha Police Department shall be required to perform all required testing as directed herein by trained technicians. Furthermore, said facility shall provide a secure area to accommodate all specimens of blood and urine submitted to them for analysis. This requirement is to maintain the integrity of not only the specimens, but the program in general. The secure area shall have the appropriate security against theft and fire. All of the foregoing shall be subject to the approval by the department's and association's selected authorized representatives, knowledgeable in the areas of chemical screening as selected by the Chief of Police and the Association. Neither side can arbitrarily withhold approval of the site. The currently approved testing facility shall be posted for all personnel. Any changes thereof shall warrant a corrected notice to be posted immediately.

The Kenosha Police Department shall retain the right to inspect said facility at any time to ascertain compliance with its established requirements, the integrity of the testing process, methods of testing, and the credentials of technicians utilized in the testing process. This includes the department submitting test samples from time to time of a known factor to ascertain the quality of analysis. The rights expressed in this paragraph also apply to the Association, who shall be responsible for all costs incurred by them.

SCREENING AND CONFIRMATION PROCEDURES.

The following procedures shall be used for screening and confirmation by the department's laboratory. All initial and confirmation tests shall be at the expense of the department.

ALL INITIAL SCREENINGS of urine or blood shall be done by ENZYME MULTIPLIED IMMUNOASSAY (EMIT PANELS) and (TLC)-THIN LAYER CHROMATOGRAPHY or COMPARABLE TESTS. All INITIAL POSITIVE SCREENINGS shall be CONFIRMED by GC (GAS CHROMATOGRAPHY) and MS (MASS SPECTOMETRY).

Any officer having a confirmed positive screening may file a request to have an additional test conducted at his/her expense, and at a laboratory of his/her choice. The request for an additional test shall be filed in writing with the Chief of Police within three (3) working days excluding Saturdays, Sundays and Holidays after the employee was advised his/her test was positive and include the name of the laboratory selected by him/her for the re-test. The sealed specimen will be transmitted from the City's laboratory to the laboratory as specified by the requesting involved employee at his/her expense. A written copy of said employee's re-test results shall be provided to the Chief of Police by the employee within five (5) working days excluding Saturdays, Sundays and Holidays after the specimen was turned over to the employee's selected laboratory.

CHEMICAL SCREENING RESULTS: (CONFIDENTIAL)

All correspondence from any laboratory or medical facility addressed to the Chief of Police shall be immediately forwarded to that office and shall only be opened by the Chief of Police. All chemical screening results shall be confidential, with dissemination limited to those with an official need to know within the department, or Personnel Department, and as required in counseling and/or treatment in the "after care" procedures of this policy.

NEGATIVE TEST RESULTS:

When an employee has been the subject of a chemical screening under the provisions of this policy and his/her test results were negative, the employee may within sixty (60) days of being advised of the results, have the results expunged from their personnel file. This shall require the employee to submit a written request to the Chief Of Police, which will be honored. The Chief will then forward the test result notice to said employee.

SPECIMEN RETENTION:

All confirmed positive specimens based upon laboratory analysis, according to prescribed guidelines, shall be retained for identification purposes at the City's authorized laboratory for a period of six (6) months unless said laboratory is notified by the Chief of Police in writing authorizing otherwise. Employees who have a separate test conducted at a laboratory of his/her choice and expense shall also be required to retain their specimen for six (6) months.

EMPLOYEE ASSISTANCE: (EAP)

The department will upon confirmation of a positive chemical test result of an employee on duty, immediately suspend him/her and attempt to assist the employee by referring him/her to our established Employee Assistance Program for further assessment and/or referral to appropriate counseling or treatment. In those instances where the employee fails to utilize the assistance to overcome his/her problem(s) and/or fails to make reasonable progress in counseling or treatment within a reasonable period of time as determined by the EAP staff and/or treatment personnel and/or continues to perform in a substandard manner, and/or continues being under the influence of chemicals in the workplace, shall be considered a safety hazard to the department, public and coworkers. This shall result in corrective disciplinary action up to and including termination against the employee.

Any and all assistance rendered under this program shall be closely monitored. This shall include:

- 1) Further assessment of the employee by competent persons.
- 2) Treatment of the employee by a recognized facility or person.
- 3) Employee signs a consent to release information to the Chief of Police and the Personnel Manager on their progress in treatment. (CONFIDENTIAL)
- 4) Process of aftercare treatment with possible random screening for a period of up to one (1) year after initial treatment. Random screening under these conditions can occur up to twice a month. This is to ascertain compliance with said treatment and objectives of the department relevant to this issue.

This is the ONLY policy provision for random screening.

DEPARTMENT ACTIONS:

While the department through its Administration seeks to identify and assist those employees that have a chemical related problem, it must not lose sight of the safety risks involved in employing these individuals. Disciplinary action may be taken against any employee found to be under the influence or in possession of chemicals within the workplace not in compliance with the Rules and Regulations. However, the extent to which discipline is applied will depend on the factors indicated below, which will be considered by the Chief of Police in prescribing a disposition of the matter.

- A. Type of violation
- B. Severity
- C. Prior violations of like nature
- D. Prior service record
- E. Willful defiance/ignorance/carelessness

Severity of violation may invoke "Dismissal" at any point, regardless of the number of prior violations of a like nature.

On any Administrative action applied, EAP counseling and follow-up may be part of the action imposed by the Chief of Police.

When an employee refuses to submit to Chemical Screening based upon "Reasonable Individualized Suspicion," the Chief of Police shall be immediately notified. If warranted by existing factors, the supervisors conducting said investigation and testing may relieve the employee from duty. This will be with pay, pending review by the Chief of Police of the investigation and of the employee's refusal to submit to a screening.

In situations where the Chief is seeking dismissal of an employee or has suspended the employee, the provisions of Wisconsin State Statute 62.13 apply. In addition, where a sworn officer contests the procedures used in this policy, a hearing will be held before the Police & Fire Commission. Non-sworn employees who contest the procedures employed in this policy, may invoke the grievance procedures as set forth in their current labor contract then in effect.

TRAINING OF SUPERVISORS:

While it is recognized that police officers have a degree of expertise in the detection of persons under the influence of alcohol and chemicals it is the desire of this Administration to further enhance supervisory capabilities as related to detection in this policy. As such, each supervisor (Sergeants and above) will be required to participate in an ongoing comprehensive chemical abuse identification training program.

SUPERVISORY INVESTIGATIONS

Chemical Screening Based on "Reasonable Individualized Suspicion"

In addressing the above captioned subject matter, supervisors carry the onus of not only detection, but documentation and articulation of facts supporting their opinions that a test of an employee for chemicals is warranted. The term Chemicals as used in the policy, related reports and the Supervisory Report Chemical Testing based upon reasonable individualized suspicion, are as defined in the "Definitions" part of the chemical Screening Policy.

The attached checklists of suggested symptoms provided herein should avail the supervisors with a tool that will expedite their assessment of an employee suspected of being under the influence of or using these substances in the workplace while on duty. Once sufficient cause is established with this tool, supportive facts, the training received in this area, and investigation completed, testing procedures can commence. Inclusive of procedures used in this issue are the tools used on a day-to-day basis to detect persons who are operating under the influence. These tools are more enhanced by the supervisors additional training. Accurate documentation is the most significant part of this process; for without it, the testing and subsequent actions by this department may be challenged.

Before proceeding, supervisors are reminded that not all employees who use and/or are under the influence of a chemical appear the same, nor do they show identical sets of symptoms. Effects vary according to such factors as size and weight, amount of substances used, time frames relevant to when the drug was last used or consumed, and to what extent the employee had been using the substances over a period of time. Each chemical has its own long or short term physical, behavioral and emotional effects upon the user.

GENERAL SYMPTOM CATEGORIES:

- | | | |
|-------------------------------|---|---|
| 1. <u>Physical</u> symptoms | - | changes in physical appearance and health |
| 2. <u>Behavioral</u> symptoms | - | employee actions, how he/she relates to others |
| 3. <u>Emotional</u> symptoms | - | employee's mood, how he/she reacts to peers, their supervisors, the department and law enforcement in general |

Supervisors that have an employee either brought to their attention or by personal observation suspect the employee of being under the influence of or using chemical substances in the workplace are to utilize another non-involved supervisor from their shift/bureau or another to conduct the investigation. Both investigating supervisors must concur that testing an employee based upon "reasonable individualized suspicion" is warranted. Under all circumstances, investigations of this nature shall be CONFIDENTIAL with initial and subsequent progress reports filed with the Chief

of Police on a daily basis or as needed. All refusals by suspected employees to submit to a Chemical Screening shall be reported to the Chief of Police immediately. All reports on "Chemical Screening Testing" or "Refusals" shall be transmitted to the Chief of Police within eight (8) hours after occurrence.

If an employee is sick or injured and as a result would miss more than four (4) consecutive work days, said employee may voluntarily report to work and perform modified duty subject to any restrictions placed upon them by a treating physician. An employee who would miss more than 30 calendar days will be required to perform modified duty subject to any restrictions placed upon them by a treating physician. **An employee who has missed more than 30 calendar days will only be required to perform modified duty if an employee's absence will be greater than three days.**

Department administration will determine what modified duty assignments may be available and will consider the employee's abilities and medically required work restrictions when making assignments.

Employees who become eligible for modified duty due to a worker's compensation covered injury will be given precedence for modified duty assignments if his/her pay would be impacted due to the duration of the worker's compensation leave.

Modified duty time will be used in determining hours for the productivity incentive, earned leave, clothing allowance and dry cleaning allowance referred to in other sections of the collective bargaining agreement.

B. Sick Leave – Article V re: Leave of Absence:

Section 3. Sick Leave

J. If an employee uses sick leave for 50% or more of his/her regularly scheduled work hours during any 90 day period, that employee will not be credited for any holiday or annual leave hours that would normally have been earned under *Article X – Paid Holidays* or *Article XI – Vacations* during the second half of that time period.

K. If an employee uses sick leave for 50% or more of his/her regularly scheduled work hours during any 90 day period, that employee is not eligible for that prorated portion of the dry cleaning allowance that would normally have been earned during that month under *Article XVII – Clothing Allowance* during the second portion of that time period.

L. No employee may engage in secondary employment during hours the employee would have otherwise been engaged in work for the City.

M. A release from work may not be for a period of more than 30 days. A new release is required every month justifying the inability to work. Releases from work must also include limitations to be considered for modified duty.

N. The provisions set forth in subsections J and K shall not apply to any employee using sick leave due to a catastrophic illness or injury during the calendar year in which he or she retires. Catastrophic illness or injury is defined as an illness or injury requiring prolonged hospitalization and/or recovery, such as cancer, multiple sclerosis, leukemia, heart attack or amyotrophic lateral sclerosis (ALS).
