Independent Auditors' Report

Board of Water Commissioners
City of Kenosha Water Utility
Kenosha, Wisconsin

Report on the Financial Statements

We have audited the accompanying financial statements of the Kenosha Water Utility, an enterprise fund of the City of Kenosha, as of and for the years ended December 31, 2013 and 2012, and the related notes to the financial statements, which collectively comprise the entity's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Kenosha Water Utility as of December 31, 2013 and 2012, and the changes in financial position and cash flows thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis-of-Matter

As discussed in Note 1, the financial statements present only the Kenosha Water Utility and do not purport to, and do not, present fairly the financial position of the City of Kenosha, Wisconsin, as of December 31, 2013 and 2012 and the changes in its financial position and cash flows, where applicable, for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion on pages 3 through 11, and the schedule of OPEB Funding Status on page 41 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audits were conducted for the purpose of forming an opinion on the financial statements that collectively comprise the Kenosha Water Utility's basic financial statements. The combining and individual fund financial statements and schedules listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements. The combining and individual fund financial statements and schedules listed in the table of contents are the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements and schedules listed in the table of contents are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Racine, Wisconsin
June 12, 2014

Management's Discussion and Analysis

The management discussion and analysis of the Kenosha Water Utility's financial performance provides an overall review of financial activities for the years ended December 31, 2013 and 2012. This information should be read in conjunction with the financial statements.

2013 Financial Highlights

The Utility's combined net position increased to \$167.8 million from \$164.5 million. Events that had significant impact on the financial statements were:

- An increase in water rates was approved by the Public Service Commission of Wisconsin effective August 1, 2013. The rates were designed to provide the utility with a 4.25% return on average net rate base.
- Operating revenues decreased more than \$62,000 or 0.3% from 2012. The decrease in revenue was primarily due to a decrease in the volume of water sold and sewage treated. The revenue decrease in the water unit was mitigated by a rate increase effective August 1, 2013.
- Operating expenses increased more than \$987,000 or 5.5% from 2012. The increase was mostly a combination of increases in water unit administrative and depreciation expenses and sewerage unit operation and maintenance expense.
- Tax equivalent transfers or payment in lieu of taxes (PILOT) by the utility to the municipality increased \$150,863 or 6.3% to \$2,543,832 in 2013 from \$2,392,969 in 2012.

2012 Financial Highlights

The Utility's combined net position increased to \$164.5 million from \$161.1 million. Events that had significant impact on the financial statements were:

- Operating revenues increased \$509,668 or 2.1% from 2011. The higher revenues were due primarily to an increase in water service revenues by residential and commercial customers and sales to other municipalities.
- Operating expenses decreased \$853,951 or 4.5% from 2011. The majority of the decrease was attributable to a 15.6% decrease in customer accounting and collecting, administrative and general expenses
- Tax equivalent transfers or payment in lieu of taxes (PILOT) by the utility to the municipality increased \$189,543 or 8.6% to \$2,392,969 in 2012 from \$2,203,426 in 2011.
- Developer installed infrastructure, both water and sewer, was added to the Utility's assets valued at approximately \$0.2 million (not including assessments and impact fees).

Overview of Financial Statements

This annual report includes this management's discussion and analysis report, the independent auditor's report, and the basic financial statements of the Utility. The financial statements also include notes that explain in more detail some of the information in the financial statements. Management's Discussion and Analysis (MD&A) serves as an introduction to, and should be read in conjunction with the basic audited financial statements and supplementary schedules. The MD&A represents management's examination and analysis of the Utility's financial condition and performance.

The financial statements report information about the Utility using full accrual accounting methods as utilized by similar business activities in the private sector. The financial statements include a statement of net position; a statement of revenues, expenses, and changes in net position; a statement of cash flows; and notes to the financial statements.

The **statement of net position** presents the financial position of the Utility on a full accrual historical cost basis. The statement of net position presents information on all of the Utility's assets, liabilities, and deferred inflows, with the difference reported as net position. This statement provides information about the nature and amount of investments in resources (assets), and the obligations to Utility creditors (liabilities), and revenue collected but not yet earned (deferred inflows). Over time, increases and decreases in net position is an indicator of whether the financial position of the Utility is improving or deteriorating. It also provides the basis for evaluating the capital structure and assessing the liquidity and financial flexibility of the Utility.

While the statement of net position provides information about the nature and amount of resources and obligations at year-end, the **statement of revenues, expenses, and changes in net position** presents the results of the business activities over the course of the fiscal year and information as to how the net position changed during the year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of the related cash flows. This statement measures the success of the Utility's operations over the past year and can be used to determine whether the Utility has successfully recovered all its costs through its user fees and other charges, as well as the Utility's profitability and credit worthiness.

The **statement of cash flows** presents changes in cash and cash equivalents, resulting from operating, financing, and investing activities. It provides answers to such questions as where did cash come from, what was cash used for and what was the change in the cash balance during the reporting period.

The **notes to the financial statements** provide required disclosures and other information that are essential to a full understanding of material data provided in the statements. The notes present information about the Utility's accounting policies, significant account balances and activities, material risks, obligations, commitments, contingencies, and subsequent events, if any.

The **supplemental schedules** provide more detail than the preceding statements. A Schedule of Capital Assets is provided for the Water, Sewerage, and Household Hazardous Waste units. Detailed debt repayment schedules are provided for all debt issues. Detailed operating revenue and expense schedules are provided as well as the water tax equivalent calculation.

Summary of Organization and Business

The Kenosha Water Utility's mission is:

"Providing and Protecting Kenosha's Greatest Natural Resource – *Water*"

The Kenosha Water Utility (KWU) provides water and wastewater service to more than 100,000 persons in the greater Kenosha area, including the City of Kenosha, Village of Pleasant Prairie, Town of Somers and Village of Bristol. The Kenosha Water Utility also provides a monthly household hazardous waste collection service for City of Kenosha residents.

The Kenosha Water Utility is a municipally-owned, fiscally-independent public utility organized under authority of Section 66.0805 of the Wisconsin State Statutes and Chapter XXXII of the City of Kenosha Code of General Ordinances. The Utility is an enterprise fund of the City of Kenosha and is solely financed by service charges operating like a private business entity. The Utility has no taxing power and receives no tax revenues from the City of Kenosha. Operational and maintenance costs are funded from customer fees and charges. The acquisition and construction of capital assets are funded by capital (cash and systems) contributions from customers, developers, federal and state grants and loans, bond sales, and Utility revenues.

The Board of Water Commissioners is composed of six aldermen appointed under authority of Section 1.06H of the City of Kenosha Code of General Ordinances. The powers and duties of the Board of Water Commissioners include establishing policy, adopting rules and regulations, adopting an annual budget, establishing rates and fees, and approving contracts and agreements. The management and operation of the Water Utility is under the direction of the General Manager who is appointed by the Board of Water Commissioners.

Surface water from Lake Michigan has been Kenosha's source of water since 1894. Lake Michigan water is valued for both its quality and quantity. The Utility provides reliable high quality supplies of potable water used for drinking, irrigation, fire protection, and other purposes. The wastewater treatment plant provides primary and secondary treatment with disinfection in accordance with permits from the State of Wisconsin Department of Natural Resources. The treated wastewater is discharged to Lake Michigan and the solids are transported to a landfill. Both plants are in compliance with all state and federal regulations. The Household Hazardous Waste program was established in 1992 and provides for a monthly drop-off service to city residential customers; wastes are disposed of by licensed wastehaulers.

Financial Analysis of the Utility

The Utility's financial condition is consistent with prior years with adequate liquid assets, reliable up to date facilities, and systems to meet demand as well as a reasonable level of unrestricted net assets. Management feels that the current financial condition, technical support staff capabilities and operating and expansion plans will meet anticipated customer needs.

The condensed financial information and associated narrative are intended to provide additional information that is essential to the full understanding of the data provided in the audited financial statements and associated notes.

Condensed Summary of Net Position

	December 31			Variance of 2013 to 2012 Increase (decrease)	
	2013	2012	2011	Dollars	%
	Capital assets:				
Net plant in service	\$ 147,895,292	\$ 151,755,111	\$ 155,276,065	\$ (3,859,819)	(2.5) %
Construction in progress	3,649,059	1,930,433	1,302,602	1,718,626	89.0
Other capital assets	1,351,791	1,351,792	1,366,282	(1)	0.0
Current, restricted and other assets	<u>36,066,082</u>	<u>32,843,133</u>	<u>30,463,312</u>	<u>3,222,949</u>	<u>9.8</u>
Total assets	<u>188,962,224</u>	<u>187,880,469</u>	<u>188,408,261</u>	<u>1,081,755</u>	<u>0.6</u>
Current liabilities	6,475,550	6,572,150	7,903,246	(96,600)	(1.5)
Long-term liabilities	<u>14,646,211</u>	<u>16,853,091</u>	<u>19,443,950</u>	<u>(2,206,880)</u>	<u>(13.1)</u>
Total liabilities	<u>21,121,761</u>	<u>23,425,241</u>	<u>27,347,196</u>	<u>(2,303,480)</u>	<u>(9.8)</u>
Net position:					
Invested in capital assets, net of related debt (restated)	140,915,019	140,619,001	139,455,784	296,018	0.2
Restricted for debt service	8,755,047	8,812,751	10,499,162	(57,704)	(0.7)
Unrestricted	<u>18,170,398</u>	<u>15,023,477</u>	<u>11,111,065</u>	<u>3,146,921</u>	<u>20.9</u>
Total net position	<u>\$ 167,840,464</u>	<u>\$ 164,455,229</u>	<u>\$ 161,066,011</u>	<u>\$ 3,385,235</u>	<u>2.1 %</u>

In 2013, total net position increased \$3.39 million or 2.1%, nearly identical to 2012. This is due to combined net income of the water, sewerage, and household hazardous waste units of \$1.99 million, a decrease of 35.3% from 2012, and capital contributions of \$1.39 million. Capital contributions consisted solely of assessments and impact fees.

In 2012, total net position increased \$3.39 million or 2.1%. This was due to combined net income of the water, sewerage, and household hazardous waste units of \$3.08 million and capital contributions of \$0.31 million. Capital contributions consisted of approximately \$0.2 million of donated infrastructure and approximately \$0.1 million in assessments and impact fees.

In 2013, total assets increased \$1.1 million or 0.6%. Capital assets increased \$2.5 million; accumulated depreciation increased \$4.6 million for a net decrease of \$2.1 million. Current, restricted and other assets increased \$3.2 million or 9.8%.

In 2012, total assets decreased \$0.5 million or 0.3%. Capital assets decreased \$0.1 million; accumulated depreciation increased \$2.8 million for a net decrease of \$2.9 million. Current, restricted and other assets increased \$2.4 million or 7.8%.

The Water, Sewerage, and Household Hazardous Waste units are self-supporting divisions. Net assets of one division are not permanently used by other divisions.

Condensed Summary of Revenues, Expenses and Changes in Fund Net Position

Net position at end of year	<u>\$ 167,840,464</u>	<u>\$ 164,455,229</u>	<u>\$ 161,066,011</u>	<u>\$ 3,385,235</u>	<u>2.1 %</u>

Revenues from operations fall into four general categories: water service, sewerage service, household hazardous waste and other charges. Other charges include penalty fees and charges for miscellaneous billed services

The number of metered customers increased less than 0.1% during 2012. Water consumption decreased 8.0%. Water services revenue decreased approximately \$35,000 or 0.3%. Sewerage service revenues decreased approximately \$239,000 or 2.3%. The decrease in revenue is attributable to decreased water consumption. The decrease in water services revenue was mitigated by a rate increase effective August 1, 2013.

Operating expenses increased 5.5% or approximately \$987,000 during 2013. Water Unit operating expenses increased 1.9% or \$77,000. Sewerage Unit operating expenses increased 12.4% or \$634,000 mainly due to increases in collection system maintenance expenses. Operating expenses increased approximately \$2,000 or 1.2% in the Household Hazardous Waste Unit. Customer accounting and collecting, administrative and general expenses for all units increased approximately \$291,000 or 7.4% while depreciation for all units decreased approximately \$17,000 or 0.3%. The increase in customer accounting and collecting, administrative and general expenses is mainly due to increased in outside services, casualty and property insurance, employees benefits and insurance and regulatory commission expense for commission, consultant and legal fees related to the contested water rate case.

Operating income for 2013 decreased 17.0% or approximately \$1.0 million. Nonoperating revenues decreased 4.4% or approximately \$8,000. Nonoperating expenses decreased 13.7% or \$121,000 due to decreases in interest expense and amortization on long-term debt.

The number of metered customers increased less than 0.1% during 2012. Water consumption increased 5.8%. Water services revenue increased approximately \$452,000 or 4.5%. Sewerage service revenues increased approximately \$6,000 or 0.1%. The increase in revenue was attributable to increased water consumption.

Operating expenses decreased 4.5% or approximately \$854,000 during 2012. Water Unit operating expenses decreased 4.0% or \$341,000. Sewerage Unit operating expenses decreased 5.1% or \$524,000. Operating expenses increased approximately \$11,000 or 8.0% in the Household Hazardous Waste Unit. Customer accounting and collecting, administrative and general expenses for all units decreased approximately \$728,000 or 15.6%.

Operating income for 2012 increased 28.3% or approximately \$1.4 million. Nonoperating revenues increased 12.4% or approximately \$19,000. Nonoperating expenses decreased 14.8% or \$153,000 due to decreases in interest expense and amortization on long-term debt.

For 2013, the increase in net position of \$3,385,239 was \$3,982 less than the previous year's increase of \$3,389,218 or a decrease of 0.1%. This was attributable to an increase in operating expenses and nearly flat operating revenues. The increase in net position attributable to the Water Unit was \$674,720; the amount attributable to the Sewerage Unit was \$2,681,369. The Household Hazardous Waste Unit accounted for the remaining \$29,147.

For 2012, the increase in net position of \$3,389,218 was \$339,519 more than the previous year's increase of \$3,049,699 or an increase of 11.1%. This was attributable to an increase in operating revenues and a decrease in operating and nonoperating expenses. The increase in net position attributable to the Water Unit was \$1,134,443; the amount attributable to the Sewerage Unit was \$2,223,436. The Household Hazardous Waste Unit accounted for the remaining \$31,339.

Total capital assets, net	<u>\$ 155,037,336</u>	<u>\$ (1,362,571)</u>	<u>\$ 778,623</u>	<u>\$ 152,896,142</u>

The Utility had combined investment in capital assets of \$247.8 million at the end of 2013. Of that amount, construction in progress and leasehold improvements totaled \$3.6 million. Accumulated depreciation totaled approximately \$95.0 million resulting in a net book value of \$152.9 million. In 2013, the Utility recorded combined depreciation expense of \$4.9 million. More detailed information about capital assets may be found in the supplemental information section report – Schedule of Capital Assets – for the Water, Sewerage, and Hazardous Waste Units as well as in Note 4 to the financial statements.

Long-Term Debt

The Utility had \$14.5 million in long-term term debt outstanding as of December 31, 2013. Of this amount, approximately \$2.2 million is due within one year (see note 5 to the audited financial statements regarding classification of revenue bond debt). Outstanding debt decreased \$2.5 million or 14.8% due to scheduled debt payments.

The Utility had \$17.0 million in long-term term debt outstanding as of December 31, 2012. Of this amount, approximately \$2.5 million was due within one year (see note 5 to the audited financial statements regarding classification of revenue bond debt). Outstanding debt decreased \$4.1 million or 19.7% due to scheduled debt payments.

The Utility carries an AA rating from Standard & Poor's Ratings Services and a rating of Aa2 from Moody's Investor Service for its water revenue bonds; the Clean Water Fund loans are not rated. Detailed debt schedules may be found in the supplemental information section as well as note 5 to the audited financial statements.

Economic Factors and the Utility's Future

The Public Service Commission of Wisconsin approved a rate increase effective August 1, 2013 with rates designed to allow the utility a 4.25% rate of return on average net rate base. The increase was necessitated by increased operational costs, primarily chemicals, power, payment in lieu of taxes (PILOT) and equipment maintenance. Additionally, the rate increase was needed to fund future water main replacement projects and tank painting.

There are no restrictions, commitments, or other limitations that would significantly affect the availability of fund resources for future use.

Contacting the Utility's Financial Management

This financial report is designed to provide our citizens, taxpayers, customers, investors and creditors with a general overview of the Utility's finances and to demonstrate the Utility's accountability for the money it receives. If you have questions about this report or need additional information, please contact the Kenosha Water Utility, Director of Business Services, 4401 Green Bay Road, Kenosha, Wisconsin 53144.

The accompanying notes are an integral part of the financial statements.

CITY OF KENOSHA WATER UTILITY
(An Enterprise Fund of the City of Kenosha, Wisconsin)
NOTES TO BASIC FINANCIAL STATEMENTS
December 31, 2013 and 2012

(1) Summary of Significant Accounting Policies

Nature of Business

The City of Kenosha Water Utility (Utility) is an enterprise fund of the City of Kenosha, Wisconsin (City) and is comprised of three units: Water, Sewerage, and Household Hazardous Waste. The Utility is governed by the City of Kenosha Board of Water Commissioners (Board) consisting of six members appointed by the Mayor of the City of Kenosha.

These financial statements present only the City of Kenosha Water Utility and are not intended to present the financial position and results of operations of the City of Kenosha, Wisconsin in conformity with accounting principles generally accepted in the United States of America.

The Water Unit operates, maintains, and constructs the City's water system. Services are financed primarily by user charges. The Water Unit charges rates and operates under service rules established by the Public Service Commission of Wisconsin (PSCW). Accounting records of the Water Unit are maintained in accordance with the Uniform System of Accounts prescribed by the PSCW.

The Sewerage Unit operates, maintains, and constructs the City's sewage collection and treatment system. Services are financed primarily by user charges. Service rates and rules are established by the Board.

The Household Hazardous Waste Unit collects, stores, and disposes of residential household hazardous waste. Services are financed primarily by user charges. Service rates and rules are established by the Board.

Measurement Focus, Basis of Accounting, and Basis of Presentation

The accounting policies of the Utility conform to U.S. generally accepted accounting principles (GAAP) for enterprise funds as formulated by the Governmental Accounting Standards Board. The accounts of the Utility, which are organized as an enterprise fund, are used to account for the Utility's activities that are financed and operated in a manner similar to a private business enterprise. Accordingly, the Utility maintains its records on the full accrual basis of accounting. Revenues from operations, investments, and other sources are recorded when earned. Expenses (including depreciation and amortization) of providing services to the public are accrued when incurred.

Nonexchange transactions, in which the Utility receives value without directly giving equal value in return, include grants and contributions. On an accrual basis, revenue from grants and contributions is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted, and expenditure requirements, in which the resources are provided to the Utility on a reimbursement basis.

(An Enterprise Fund of the City of Kenosha, Wisconsin)
NOTES TO BASIC FINANCIAL STATEMENTS
December 31, 2013 and 2012

(1) Summary of Significant Accounting Policies (Continued)

Cash and Cash Equivalents

Cash and cash equivalents, including restricted cash and cash equivalents, are considered to have original maturities of three months or less from the date of purchase.

Receivables/Payables

Transactions between the Utility and other funds of the City that are representative of lending/borrowing arrangements outstanding at year end are referred to as advance to/from the municipality. All other outstanding balances between the Utility and other funds of the City are reported as due to/from other funds.

The Utility has the right under Wisconsin statutes to place special assessments and delinquent water and sewerage bills on the tax roll for collection. As such, no allowance for uncollectible customer accounts is considered necessary.

Materials and Supplies

Inventories of materials and supplies are generally used for construction, operation, and maintenance work, and are not for resale. They are valued at the lower of cost or market utilizing the average cost method and charged to construction and expense when used.

Restricted Assets

Certain proceeds of the Utility's revenue bonds, as well as certain resources set aside for their repayment, system renewal and replacement, depreciation and taxes, are classified as restricted assets on the statement of net position because their use is limited by applicable bond covenants. In addition, amounts collected for the Storm Water Utility, which are due to the City, are considered restricted.

When both restricted and unrestricted resources are available for use, the Utility's policy is to use restricted resources first, then unrestricted resources as they are needed.

Other Current Assets

Other current assets include the current portion of special assessments receivable, interest receivable and prepaid expenses.

CITY OF KENOSHA WATER UTILITY
(An Enterprise Fund of the City of Kenosha, Wisconsin)
NOTES TO BASIC FINANCIAL STATEMENTS
December 31, 2013 and 2012

(1) Summary of Significant Accounting Policies (Continued)

Investments

Investment of Utility funds is restricted by Wisconsin Statutes to:

- Time deposits in any credit union, bank, savings bank, trust company, or savings and loan association authorized to transact business in the state which matures in three years or less.
- Bonds or securities of any county, city, drainage district, technical college district, village, town, or school district of the state. Also, bonds issued by a local exposition district, local professional baseball park district, local professional football stadium district, local cultural arts district or the University of Wisconsin Hospitals and Clinics Authority.
- Bonds or securities issued or guaranteed by the federal government.
- The Wisconsin Local Government Investment Pool.
- Any security maturing in seven years or less and having the highest or second highest rating category of a nationally recognized rating agency.
- Securities of an open-end management investment company or investment trust, subject to various conditions and investment options.
- Repurchase agreements with public depositories, with certain conditions.

Investments are reported at fair value, which is the amount at which an investment could be exchanged in a current transaction between willing parties. Fair values are based on quoted market prices. Adjustments necessary to report investments at fair value are recorded in the operating statement as increases or decreases in investment income.

Special Assessments and Unbilled Assessments

Unbilled assessments represent assessments that have been levied upon properties within the City that are not currently connected to the Utility system. This balance also includes assessments levied on properties outside the boundaries of the City which are not collectible until and unless the property connects to the Utility system or is attached to the City. Amounts reported as special assessments represent amounts levied that are currently payable.

CITY OF KENOSHA WATER UTILITY
 (An Enterprise Fund of the City of Kenosha, Wisconsin)
 NOTES TO BASIC FINANCIAL STATEMENTS
 December 31, 2013 and 2012

(1) Summary of Significant Accounting Policies (Continued)

Capital Assets

Capital assets are defined by the Utility as assets with an initial, individual cost of more than \$1,000 and an estimated useful life in excess of one year. Capital assets are recorded at cost or the fair market value at the time of contribution to the Utility. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized. Interest incurred during the construction phase is reflected in the capitalized value of utility plant constructed, net of interest earned on the invested proceeds over the same period.

Capital assets are depreciated using the straight-line method over the following useful lives:

	Useful life (years)
Water unit:	
Production intake	50-75
Production pumping	25-50
Production purification	18-50
Transmission and distribution	20-108
General plant and equipment	5-17
Sewerage unit:	
Collection system	20-100
Collection system pumping	20-50
Treatment and disposal	15-50
Engineering equipment	5-17
General plant and equipment	5-50
Household hazardous waste unit:	
Structures and improvements	25
Equipment	12

Compensated Absences

Vacation

The Utility compensates all employees upon termination for unused vacation earned in the current year. Employees may carry-over up to two weeks of unused vacation into the next calendar year to be used by March 31 of that year; any unused vacation carry-over not used by March 31 is forfeited.

CITY OF KENOSHA WATER UTILITY
(An Enterprise Fund of the City of Kenosha, Wisconsin)
NOTES TO BASIC FINANCIAL STATEMENTS
December 31, 2013 and 2012

(1) Summary of Significant Accounting Policies (Continued)

Compensated Absences (Continued)

Sick Leave

Utility employees are entitled to sick leave at a rate of one day per month of full-time service. Sick leave is paid upon normal retirement or disability up to a maximum of 66 days. Terminated employees are not compensated for unused sick leave. The balance sheets of the Water and Sewerage Units contain a liability for estimated accrued sick leave and associated fringe benefits.

Equity Classifications

The difference between all other elements in a statement of financial position is net position. Net position is displayed in three components:

- a. Net investment in capital assets – Consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets. Deferred outflows of resources and deferred inflows of resources that are attributable to the acquisition, construction, or improvement of those assets or related debt are also included in this component of net position. Unspent related debt proceeds or deferred inflows of resources are excluded from the calculation of net investment in capital assets.
- b. Restricted net position – Consists of restricted assets reduced by liabilities and deferred inflows of resources related to those assets. Generally, a liability relates to restricted assets if the asset results from a resource flow that also results in the recognition of a liability or if the liability will be liquidated with the restricted assets reported.
- c. Unrestricted net position – The net amount of the assets, deferred outflows of resources, liabilities, and deferred inflows of resources that are not included in the determination of net investment in capital assets or the restricted components of net position.

Long-term Obligations

Long-term debt and other obligations are reported as Utility liabilities. Long-term debt is reported net of any premium or discount.

Charges for Services

Billings for water and sewerage services are issued monthly to high-consumption users and bi-monthly to all other customers. Hazardous waste charges are billed bimonthly to all residential customers. Revenues are recognized on the accrual basis and include amounts for service rendered but not billed.

CITY OF KENOSHA WATER UTILITY
(An Enterprise Fund of the City of Kenosha, Wisconsin)
NOTES TO BASIC FINANCIAL STATEMENTS
December 31, 2013 and 2012

(1) Summary of Significant Accounting Policies (Continued)

Classification of Revenues

The Utility has classified its revenues as either operating or nonoperating. Operating revenue includes activities that have the characteristics of exchange transactions, including billing for water, sewerage, and hazardous waste services. Nonoperating revenue includes activities that have the characteristics of nonexchange transactions, such as grants and contributions. Investment income is also classified as nonoperating.

Taxes

The Water Unit records an annual payment in lieu of taxes (PILOT) based on the value of its plant and materials and supplies inventory using the current assessment ratio and local and school portion of the mill rate. Municipal utilities are exempt from federal and state income taxes. A portion of the payment is allocated to the Sewerage Unit. The payment is recorded as a transfer out to the City's General Fund.

Use of Estimates

The preparation of the basic financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities and the reported amounts of revenues and expenses. Actual results could differ from those estimates.

Reclassifications

Certain balances have been reclassified to conform with the current year's presentation.

New Accounting Pronouncements

In June 2009, the GASB issued an accounting standard regarding OPEB measurements by agent employers and agent multiple-employer plans. The standard addresses issues related to the use of the alternative measurement method and the frequency and timing of measurement by employers that participate in agent multiple-employer other postemployment benefit plans. The Utility implemented the requirements of this standard beginning with the year ending December 31, 2012.

In November 2010, the GASB issued an accounting standard regarding accounting and financial reporting for service concession arrangements. The standard provides accounting and reporting guidance by establishing recognition, measurement, and disclosure requirements for service concession arrangements for both transferors and governmental operators, requiring governments to account for and report service concession arrangements in the same manner. The Utility implemented the requirements of this standard for the year ended December 31, 2012.

CITY OF KENOSHA WATER UTILITY
(An Enterprise Fund of the City of Kenosha, Wisconsin)
NOTES TO BASIC FINANCIAL STATEMENTS
December 31, 2013 and 2012

(1) Summary of Significant Accounting Policies (Continued)

New Accounting Pronouncements (Continued)

In November 2010, the GASB issued an accounting standard which amended previous guidance related to the definition of the reporting entity. The objective of this statement is to improve financial reporting for a governmental financial reporting entity. This statement modifies certain requirements for inclusion of component units in the financial reporting entity. The Utility implemented the requirements of this standard beginning with the year ending December 31, 2013.

In December 2010, the GASB issued an accounting standard regarding codification of accounting and financial reporting guidance contained in pre-November 30, 1989 FASB and AICPA pronouncements. The standards will improve financial reporting by contributing to efforts to codify all sources of generally accepted accounting principles for state and local governments so that they derive from a single source. It will result in a more consistent application of applicable guidance in financial statements of state and local governments. The Utility implemented the requirements of this standard with the year ended December 31, 2012.

In June 2011, the GASB issued an accounting standard regarding financial reporting of deferred outflows of resources, deferred inflows of resources, and net position. The objective of this statement is to provide financial reporting guidance for deferred outflows of resources and deferred inflows of resources. The Utility will implement the requirements of this standard with the year ended December 31, 2012.

In June 2011, the GASB issued an accounting standard regarding derivative instruments application of hedge accounting termination provisions. The objective of this statement is to clarify whether an effective hedging relationship continues after the replacement of a swap counterparty or a swap counterparty's credit support provider. This statement sets forth criteria that establish when the effective hedging relationship continues and hedge accounting should continue to be applied. The Utility will implement the requirements of this standard with the year ended December 31, 2012.

In March 2012, the GASB issued an accounting standard regarding financial reporting of deferred outflows of resources, deferred inflows of resources, and net position. The objective of this statement is to clarify the reporting of certain items previously reported as assets and liabilities. The Utility implemented the requirements of this standard beginning with the year ending December 31, 2013.

In March 2012, the GASB issued an accounting standard which contains technical corrections for previously issued standards to resolve conflicting guidance. The Utility implemented the requirements of this standard beginning with the year ending December 31, 2013.

In June 2012, the GASB issued an accounting standard which establishes accounting and financial reporting requirements related to pensions for governments whose employees are provided with pensions through pension plans that are covered by the scope of this Statement, as well as for nonemployer governments that have a legal obligation to contribute to those plans. The Utility will implement the requirements of this standard beginning with the year ending December 31, 2014.

CITY OF KENOSHA WATER UTILITY
 (An Enterprise Fund of the City of Kenosha, Wisconsin)
 NOTES TO BASIC FINANCIAL STATEMENTS
 December 31, 2013 and 2012

(1) Summary of Significant Accounting Policies (Continued)

New Accounting Pronouncements (Continued)

In June 2012, the GASB issued an accounting standard that replaces the requirements of Statement No. 27, *Accounting for Pensions by State and Local Governmental Employers*, as well as the requirements of Statement No. 50, *Pension Disclosures*, as they relate to pensions that are provided through pension plans administered as trusts or equivalent arrangements (hereafter jointly referred to as trusts) that meet certain criteria. The Utility will implement the requirements of this standard beginning with the year ending December 31, 2015.

In January 2013, the GASB issued an accounting standard that establishes accounting and financial reporting standards related to government combinations and disposals of government operations. The Utility will implement the requirements of this standard beginning with the year ending December 31, 2014.

In November 2013, the GASB issued an accounting standard that amends Statement No. 68, *Accounting and Financial Reporting for Pensions – an amendment of GASB Statement No. 27*. The requirements of this standard will eliminate the source of a potential significant understatement of restated beginning net position and expense in the first year of implementation of Statement No. 68 in the accrual basis financial statements and nonemployer contributing entities.

(2) Cash and Investments

The Utility, as an enterprise fund of the City, maintains separate cash and investment accounts at the same financial institutions utilized by the City. A summary of cash and investments as of December 31, 2013 and 2012 are as follows:

	2013	2012
Petty cash	\$ 1,700.00	\$ 1,700.00
Demand deposits	2,532,624.16	2,001,486.82
Certificates of deposit	20,070,000.00	18,637,900.00
Total cash, cash equivalents and investments	\$ 22,604,324.16	\$ 20,641,086.82
Reconciliation to the financial statement:		
Current assets:		
Cash and cash equivalents	11,202,334.07	9,188,156.64
Restricted cash - Storm Water Utility collections	331,990.09	315,030.18
Restricted Investments	11,070,000.00	11,137,900.00
Total cash, cash equivalents and investments	\$ 22,604,324.16	\$ 20,641,086.82

NOTES TO BASIC FINANCIAL STATEMENTS
December 31, 2013 and 2012

(2) Cash and Investments (Continued)

Investment Policy

The Utility's investments are made in accordance with the Utility's investment policy which is similar to the City of Kenosha's investment policies and the Wisconsin Statutes. A summary of authorized investments is included in Note 1.

Custodial Credit Risk

Custodial credit risk for deposits is the risk that in the event of a financial institution failure, the Utility's deposits may not be returned. Deposits of governmental entities held by an official custodian in banks located in the same state as the governmental entity are insured by the Federal Deposit Insurance Corporation (FDIC) in the amount of \$250,000 for time and savings deposits and \$250,000 for demand deposits per financial institution. Deposits are also insured for \$400,000 by the State Deposit Guarantee Fund. The investment policies require collateralization of deposits at financial institutions when the total amount of such deposits exceeds the insured limits. Federal depository insurance and the State of Wisconsin Guarantee Fund insurance apply to all municipal accounts, and accordingly, the amount of insured funds is not determinable for the Utility alone.

The Utility invests in various certificate of deposits held at multiple banks. The balance at each bank is below the FDIC limits noted above, resulting in all balances being fully insured at December 31, 2013 and 2012.

Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations to the Utility. The Utility does not have a formal policy addressing this type of investment risk.

Interest Rate Risk

Interest rate risk is the risk that the fair value of investments will decrease as a result of an increase in interest rates. As of December 31, 2013 and 2012, the Utility's investments were certificates of deposit with maturities of less than one year.

CITY OF KENOSHA WATER UTILITY
(An Enterprise Fund of the City of Kenosha, Wisconsin)
NOTES TO BASIC FINANCIAL STATEMENTS
December 31, 2013 and 2012

(5) Long-term Debt (Continued)

State of Wisconsin Department of Natural Resources Clean Water Fund Loan (CWFL)

Clean Water Fund loans are authorized by municipal ordinances prepared pursuant to Section 66.0621 of the Wisconsin Statutes. Sewerage Unit Clean Water Fund debt is payable from revenues of the sewerage system; however, upon default, the City's transportation aids or shared revenue may be reduced. The municipal ordinances provide for the establishment of separate accounts into which cash receipts are allocated. The following accounts have been established:

- Renewal and replacement - Utilities receiving federal or state construction grant funds from the EPA or the Wisconsin Fund are required by Wis. Admin. Code NR 128.13 and CFR 35.2005, Federal Register, to establish and fund a "replacement account" for mechanical equipment. Each grantee must review its facility and estimate its future expenditures for equipment replacement that will be necessary to maintain the facility's capacity throughout its design life of 20 years. Withdrawals are made as major mechanical equipment is repaired or replaced.

- Debt Service account - Used to deposit monthly one-sixth and one-twelfth of the next installment of bond interest and principal, respectively, due on the succeeding payment date until the total amount due is on deposit.

Revenue Bonds

Revenue bond debt is payable from revenues derived by the Utility. Revenue bonds are authorized by municipal ordinances prepared pursuant to Section 66.0621 of the Wisconsin Statutes. Such ordinances provide for the establishment of separate accounts into which cash receipts are allocated. The following accounts have been established for the Water and Sewerage units:

- Special redemption account - Used to deposit monthly one-sixth and one-twelfth of the next installment of bond interest and principal, respectively, due on the succeeding payment date until the total amount is on deposit.

CITY OF KENOSHA WATER UTILITY
(An Enterprise Fund of the City of Kenosha, Wisconsin)

NOTES TO BASIC FINANCIAL STATEMENTS

December 31, 2013 and 2012

(5) Long-term Debt (Continued)

Revenue Bonds (continued)

- Reserve account - Used to make interest or principal payments when amounts are not available in the special redemption account, remedy deficiencies in any of the other accounts, or retire bonds in advance of maturity.
- Renewal and replacement - Used for the payment of repairs, replacements, new construction, and expansion on or additions to the system.
- Tax equivalent account - Used to fund the annual tax equivalent paid to the City.
- Depreciation account - Used for the payment of extraordinary repairs or replacements and to remedy any deficiencies in the special redemption account.

Advance from Municipality

In 1999, the City issued general obligation refunding bonds to pay off its Wisconsin Retirement System unfunded pension liability. The Utility recorded its share of this issue, and makes principal and interest payments to the City. During 2009, the City refunded the 1999 general obligation refunding bonds which resulted in an increase in annual principal payments and a reduction in annual interest payments due for the remaining life of the bonds. The Utility recorded its share of the increase in principal due as a charge to the current year's pension expense.

Principal and Interest Payments

Long-term debt principal and interest requirements to maturity as of December 31, 2013 are as follows:

	Principal			Interest		
	Water unit	Sewerage unit	Total	Water unit	Sewerage unit	Total

 NOTES TO BASIC FINANCIAL STATEMENTS
 December 31, 2013 and 2012

(7) Employees' Retirement System

All eligible Utility employees participate in the Wisconsin Retirement System (System), a cost-sharing multiple-employer defined benefit public employee retirement system (PERS). All permanent employees expected to work over 1,200 hours per year (600 hours if hired before July 1, 2011) are eligible to participate in the System. Covered employees in the general category are required by statute to contribute 6.65% (5.9% for 2012 and 6.5% for 2011) of their salary to the plan. Employers generally made these contributions to the plan on behalf of employees prior to 2011. Employers are required to contribute an actuarially determined amount necessary to fund the remaining projected cost of future benefits. As of August 1, 2011, the Utility no longer made the employee required contribution for non-represented employees; the Utility contributed 5.8% of the required 11.6% contribution to the System. As of January 1, 2012, the Utility no longer made the employee required contribution for any employee; the Utility contributed 6.65% of the required 13.3% contribution to the System. Total Utility payroll, covered payroll, and contributions for 2013, 2012, and 2011 are as follows:

	Year ended December 31,		
	2013	2012	2011
Total Utility payroll	\$ 4,826,428.76	\$ 4,501,815.28	\$ 4,818,847.31
Total covered employee payroll	\$ 4,723,637.07	\$ 4,461,416.15	\$ 4,618,425.79
Total required contributions	\$ 313,928.98	\$ 263,677.81	\$ 489,811.67
Total required contributions (%)	6.65%	5.9%	5.8% - 11.6%

Details of the plan are disclosed in the financial statements of the City.

(8) Risk Management

The Utility is exposed to various risks of loss related to theft of, damage to, or destruction of assets, torts, errors and omissions, workers' compensation, and health care of its employees. The Utility purchases commercial insurance to insure its assets and protect against liability claims. Settled liability and property damage claims have not exceeded the commercial insurance coverage in the last five years. The Utility, in conjunction with the City, is self insured for workers' compensation and health insurance. The City purchases stop loss insurance to limit risk exposures.

For liability and errors and omissions insurance, the City, including the Utility, is a participant in the Wisconsin Municipal Insurance Commission (WMIC). The WMIC is an intergovernmental cooperation commission created by contract under Section 66.0301 of the Wisconsin Statutes in August 1987 for the purpose of facilitating the organization, establishment, and capitalization of the Cities and Villages Mutual Insurance Company (CVMIC) and has approximately 45 municipalities as members. CVMIC is a municipal mutual insurance company established on September 19, 1987 under Section 611.23 of the Wisconsin Statutes. CVMIC provides liability and worker's compensation insurance coverage. Separately issued financial statements for CVMIC may be obtained from CVMIC at 9898 W. Bluemound Road, Wauwatosa, WI 53226-4319.

(An Enterprise Fund of the City of Kenosha, Wisconsin)
NOTES TO BASIC FINANCIAL STATEMENTS
December 31, 2013 and 2012

(8) Risk Management (Continued)

For liability and errors and omissions insurance claims, the uninsured risk of loss is \$125,000 per incident and \$500,000 in the aggregate for a policy year.

The participation of the City, and its related funding for capitalization, is accounted in an internal service fund in the financial statements of the City. See the City's financial statements for additional information on the City's participation in the public entity risk pools as a whole.

(9) Basis for Existing Rates

Water Unit

Rates were approved by the PSCW on July 31, 2013, and placed into effect by the Utility for service on and after August 1, 2013. The new rates were designed to provide a 4.25% return on rate base calculated on estimated utility plant in service and operating revenue and expense for the test year 2013.

On December 22, 2009, the PSCW authorized a rate increase effective December 31, 2009. The new rates were approved using the Simplified Rate Case Process which allowed a 3.8% increase in rates for general service, public fire protection and wholesale service. The revenue increase combined with the Utility's prior year's net operating income did not exceed an overall rate of return of 7.4%, the Commission's overall rate of return applicable to a municipally owned water utility.

Sewerage Unit

On October 27, 2008, the Board of Water Commissioners approved a rate adjustment for sewerage service, industrial waste discharge permit and miscellaneous services that was placed into effect December 31, 2008.

Household Hazardous Waste Unit

Rates were approved by the Board of Water Commissioners on November 27, 2006, and placed into effect January 1, 2007.

(10) Commitments and Contingencies

At December 31, 2013, the Utility had no outstanding purchase commitments.

At December 31, 2012, the Utility had outstanding purchase commitments for contracts of approximately \$13,480 which is for wastewater treatment equipment improvements.

From time to time, the Utility becomes a party to claims and legal proceedings. Although the outcome of such matters cannot be forecasted with certainty, it is the opinion of management and the Utility's attorney that the likelihood is remote that any such claim or proceedings will have a material adverse effect on the Utility's financial position or results of operations.

(An Enterprise Fund of the City of Kenosha, Wisconsin)
NOTES TO BASIC FINANCIAL STATEMENTS
December 31, 2013 and 2012

(11) Other Postemployment Benefits

The Utility participates in a single-employer defined benefit health care plan (“the Retiree Health Plan”) administered by the City of Kenosha. The plan provides health insurance benefits for eligible retirees, their spouses and eligible dependents through the City’s group health insurance plan, which covers both active and retired members. Benefit provisions are established through personnel policy guidelines or past practice and state that eligible retirees, their spouses and eligible dependents receive healthcare insurance based on the following criteria:

- Regularly appointed full-time employee’s retiring under the provisions of the Wisconsin Retirement System (WRS) with greater than or equal to fifteen years of service may retain City health insurance, the full premium cost being paid by the City, from the first month following the retiree’s sixtieth birthday, for a maximum of five years, or until the retiree becomes eligible for other paid health insurance, becomes eligible for Medicare, or until the retiree attains the age of sixty-five, whichever occurs first.
- Regularly appointed full-time employee’s retiring under the provisions of the WRS with greater than or equal to eight years of service but less than fifteen years of service may retain City health insurance, the full premium cost being paid by the City, from the first month following the retiree’s sixty-second birthday, for a maximum of three years, or until the retiree becomes eligible for other paid health insurance, becomes eligible for Medicare, or until the retiree attains the age of sixty-five, whichever occurs first.

The Retiree Health Plan does not issue a publicly available financial report.

Benefit provisions are established through personnel policies and generally result in the employer paying 100% of the health care costs – less plan deductibles and co-pays – as outlined above. Benefit provisions may be amended through changes in personnel policy guidelines by action of the City’s Common Council. There is no contribution requirement since the Utility pays 100% of health care costs less plan deductibles and co-pays. For fiscal 2013 and 2012, the Utility contributed \$257,000 and \$238,000 to the plan, respectively.

The Utility’s annual other postemployment benefit (OPEB) cost (expense) is calculated based on the annual required contribution (ARC) of the employer, an amount actuarially determined in accordance with parameters of GASB interpretations. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years.

CITY OF KENOSHA WATER UTILITY
 (An Enterprise Fund of the City of Kenosha, Wisconsin)
 NOTES TO BASIC FINANCIAL STATEMENTS
 December 31, 2013 and 2012

(11) Other Postemployment Benefits (Continued)

The funded status of the plan as of December 31, 2012, the most recent actuarial valuation date, was as follows:

	Water Unit	Sewerage Unit	Total
Actuarial accrued liability (AAL)	\$ 2,180,628.00	\$ 1,805,894.00	\$ 3,986,522.00
Actuarial value of plan assets	-	-	-
Unfunded actuarial accrued liability (UAAL)	\$ 2,180,628.00	\$ 1,805,894.00	\$ 3,986,522.00
Funded ratio (actuarial value of plan assets / AAL)	0.00%	0.00%	0.00%
Covered payroll (active plan members)	\$ 2,583,829.00	\$ 2,139,808.00	\$ 4,723,637.00

Actuarial valuations of an ongoing plan involve estimates for the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multiyear trend information that shows whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan is understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the December 2013 actuarial valuation, the projected unit credit actuarial cost method was used. The actuarial assumptions include a 3.25% investment rate of return and an annual healthcare cost trend rate of 8.5% initially, reduced by decrements to an ultimate rate of 4.7% after 2080. The unfunded actuarial accrued liability is being amortized over 30 years from the valuation date in level dollar payments.

CITY OF KENOSHA WATER UTILITY
 (An Enterprise Fund of the City of Kenosha, Wisconsin)
 NOTES TO BASIC FINANCIAL STATEMENTS
 December 31, 2013 and 2012

(12) Restatement

As described in Note 1, the Utility adopted GASB Statement No. 65 *Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position* and GASB Statement No. 65 *Items Previously Recognized as Assets and Liabilities* as of January 1, 2012. The standard eliminates the provision for capitalizing and amortizing debt issue costs. Debt issue costs are considered an expense at the time the debt is issued. As a result, the Utility's beginning of the year net position has been restated as follows:

	<u>Water Unit</u>	<u>Sewer Unit</u>	<u>Household Hazardous Waste Unit</u>	<u>Total</u>
Ending net position, December 31, 2012, as previously reported	\$ 69,760,801.09	\$ 94,339,937.79	\$ 376,020.94	\$ 164,476,759.82
Restatement to remove debt issuance costs	<u>(21,531.00)</u>	<u>-</u>	<u>-</u>	<u>(21,531.00)</u>
Net position, December 31, 2012, as restated	<u>\$ 69,739,270.09</u>	<u>\$ 94,339,937.79</u>	<u>\$ 376,020.94</u>	<u>\$ 164,455,228.82</u>

This information is an integral part of the accompanying financial statements.
