Subject: ***Proposed GIS Work Management System and GPS Vehicle Tracking Solution:  
Freeance Mobile Software for Smartphones***

**BACKGROUND/ANALYSIS**

For some time now, the Public Works Committee has made it a priority for the Department of Public Works to look for ways to improve operational efficiencies and supervisory effectiveness. The Common Council allocated sufficient CIP funding for this purpose, and recently approved enterprise software solution(s) for the City. Consistent with that initiative, and with the encouragement of multiple committees, staff worked hard to aggressively seek out new technology and industry practices that will help staff achieve the vision promoted by the Common Council. Although the search started with the intent of initiating some form of GPS tracking for Department of Public Works vehicles, staff realized that it is possible to incorporate GIS applications and extend use of mobile devices (smartphones) to improve numerous work processes. Staff extensively researched a number of solutions and is pleased to report that the solution they favor uses smartphones as the communicating tool interfaced with the City's own GIS system to create a comprehensive and versatile real time work management and tracking system. Besides the major advantages of providing a work management and work planning tool it also allows for real time reporting, tracking, measuring, and allows for staff to efficiently and effectively respond to emergencies and complaints as well as can be easily integrated into an Enterprise Solution.

The Freeance Mobile people have submitted a formal proposal for review and approval. However, staff is determined to negotiate that price further, and will be prepared to submit the final contract for approval to the Committee at its regular meeting of May 25, 2011. Based on the preliminary proposal, the capital costs are as follows:

<b>2011 CIP Funding Allocation</b>	<b>\$180,000 (\$125,000 PW plus \$55,000 SWU)</b>
------------------------------------	---

<b>2011 COSTS</b>			
<b>CAPITAL COSTS</b>		<b>OPERATING COSTS*</b>	
Freeance Mobile Hardware, Software, Training	\$50,000		
GIS Hardware, Software Training	\$31,000

Racking System with chargers	\$2,000		
Hardware Upgrades for Administration Computers	\$12,000		
<b>Estimated Total Capital Costs</b>	<b>\$105,000</b>	<b>Estimated Total Operating Costs</b>	<b>\$7,500</b>

<b>2012 COSTS</b>			
<b>CAPITAL COSTS</b>		<b>OPERATING COSTS</b>	
		Freeance Updates, Maintenance, Support	\$5,913
Smartphone replacements/repair (10 phones, all accessories)	\$2,000	GIS Updates, Maintenance, Support	\$5,000
Additional smartphones/tablets (including all accessories)	\$2,000	Cell Service Plan - Data Only (50 phones, 12 months)	\$15,000
		Cell Service Plan –Data & Voice (10 phones, 12 months)	\$6,000
<b>Estimated Total Capital Costs</b>	<b>\$4,000</b>	<b>Estimated Total Operating Costs</b>	<b>\$31,913</b>

<b>2013 &amp; FUTURE YEAR COSTS</b>			
<b>CAPITAL COSTS</b>		<b>OPERATING COSTS</b>	
		Freeance Updates, Maintenance, Support	\$5,913
Smartphone replacements/repair (30 phones, all accessories)	\$6,000	GIS Updates, Maintenance, Support	\$5,000
Additional smartphones/tablets (including all accessories)	\$2,000	Cell Service Plan - Data Only (60 phones, 12 months)*	\$19,800
		Cell Service Plan – Data & Voice (10 phones, 12 months)*	\$6,600
<b>Estimated Total Capital Costs</b>	<b>\$8,000</b>	<b>Estimated Total Operating Costs</b>	<b>\$37,313</b>

\*Assumed a 10% inflation increase in cell phone service provider costs.

Based on the \$180,000 that is allocated in the adopted Capital Improvement Program, we would expect there to be a net reduction of approximately \$75,000. However there will be a greater operating expense than what is included in the 2011 operating budget. Staff recommends that a portion of the reimbursement from FEMA for the February 2, 2011 storm be applied to cover these 2011 operating costs.

The Committee directed staff to evaluate the existing hardware for engineering staff and field responders to ensure that they have adequate tools to efficiently and effectively use the productivity gains with the implementation of this system. Analysis of these needs will be completed and provided at the committee meeting.

Staff is currently negotiating the final prices for the hardware, software and support services for distribution at the committee meeting.

**RECOMMENDATION**

Staff recommends that the proposal with Freeance be approved and that staff be directed to acquire the necessary hardware and software needed and to begin implementation.

Subject: Project: 09-1413 Washington Park Velodrome Facility  
 Location: 1901 Washington Road

This project consists of building and site demolition, construction of new building, utility work, construction of concrete sidewalk and stairs, installation of retaining walls, plumbing, HVAC and electric.

**Following is the list of bidders:**

	Base Bid	Alternate A	Alternate D
Rasch Construction, Kenosha, WI	\$354,344.00	\$4,244.00	\$1,500.00
Bane Nelson, Kenosha, WI	\$363,291.00	\$7,200.00	\$2,000.00
Absolute Construction, Racine, WI	\$384,700.00	\$7,800.00	\$4,000.00
Scherrer Construction, Burlington, WI	\$384,999.00	\$4,375.00	\$10,000.00
Bukacek Construction, Racine, WI	\$431,180.00	\$4,097.00	\$23,252.00
Magill Construction, Elkhorn, WI	\$441,730.00	\$94.00/LF	\$44,000.00
Camosy Construction, Kenosha, WI	\$470,000.00	\$23,500.00	\$7,500.00

Alternate A is to provide and install a railing adjacent to the top wall including post foundations with the finish matching the stair railings. Alternate D is commence construction after August 29, 2011.

It is recommended that this contract be awarded to Rasch Construction, Kenosha, Wisconsin, for the base bid amount of \$354,344 plus \$4,244 for Alternate A and \$1,500 for Alternate D plus \$13,912 in contingency for unforeseen conditions (if needed), for total award amount of \$374,000.

Staff does anticipate additional costs due to last minute plan clarification during the bidding process. The project can be funded with requested amount using 2007, 2010 and 2011 CIP funding itemized for Washington Park. However, if any unforeseen challenges arise, a CIP amendment or additional funding may need to be considered.

This recommendation also includes construction to start after August 29, 2011 due to increased costs for temporary power, temporary restrooms and construction site activities for the 2011 park and velodrome season.

Budget amount is \$180,000 which includes painting of the buildings after the tuckpointing contract is completed. The painting contract will be advertised and bids opened tentatively July 6, 2011.

This project consists of tuckpointing, replacement of concrete masonry unit (CMU) block, lintel repair or replacement, and miscellaneous building repairs which include replacing steel siding, installing aluminum fascia trim and caulking openings between window edges and the abutting masonry. This project was advertised and a pre-bid meeting was held to offer the option for contractors to inspect the facility and speak with engineering staff.

### Following is the list of bidders:

	Base Bid
Custom Restoration, Pewaukee, WI	\$105,883.87
Jimmy Z Masonry Corp., Crystal Lake, IL	\$182,201.91

It is recommended that this contract be awarded to Custom Restoration, Pewaukee, Wisconsin, for the base bid amount of \$105,883.87 plus \$10,116.13 in contingency for unforeseen conditions (if needed), for total award amount of \$116,000. Funding is from CIP Line Item PK-10-001.

The quantities may be adjusted to include the alternates, which would decrease the quantities of the base bid and ultimately would be a savings to the contract, but cannot be awarded until the lintels are exposed. At this time a licensed structural engineer is able to inspect the facility once the lintels are exposed and a decision can be made that the alternate prices and work would be acceptable.
