13.12 TOWING SERVICE

A. Purpose. Motor vehicles must, of necessity, be removed from public or private property at the request of the City Police Department without the owner's permission, where said vehicles: are disabled, are abandoned, constitute a public or private nuisance, are illegally parked, are evidence, are stolen, or are or were in the ownership or control of a prisoner or dead or disabled person who is unable to personally arrange for towing. The above service shall be known as "**Class I Tows**". Other motor vehicles which become disabled may be operated by parties who need to have their vehicle towed but who have no preference for a tower. In such cases, the public convenience requires the Police Department to arrange for towing services. Such service shall be known as "**Class II Tows**". Further, the convenience of the City requires that disabled City vehicles be towed promptly upon request for a reasonable fee. Such service shall be known as "**Class III Tows**".

In order to effectuate the above, it is necessary for towers who tow at the request of the City Police Department to be licensed by the City to insure that all tows will be made by adequately insured towers, who operate safe and efficient tow trucks, and who

possess sufficient equipment to be able to respond to the vast majority of all Police Department calls for towing service, irrespective of the degree of difficulty of the call. Licensing will insure that towers have a sufficient amount of equipment as will enable City licensed towers to service City interest concurrently with the service of private sector customers. Licensing will also insure that towers are in a position to and will accept all calls for service in order to provide efficient services and in order to prohibit any tower from skimming off only the most desirable business and that towers have adequate and reasonably safe storage areas which are conveniently accessible to City residents. Licensing will insure tower responsiveness to the needs of the City and of City residents.

B. Definitions. The following words, as used herein, shall mean:

1. "**Person**" shall be any party, person, firm, corporation, partnership, association or other legal entity.

2. "**Preference Tow**" shall mean any motor vehicle accident or disablement where a motor vehicle operator, requiring towing service, expresses a preference as to a named wrecker.

3. "**No Preference Tow**" shall mean any motor vehicle accident or disablement where a motor vehicle operator, requiring towing service, expresses no preference as to a named wrecker.

4. "**Wrecker**" shall mean one engaged in the business of or offering the services of a motor vehicle tower.

5. "**Licensee**" shall be one who has been issued a license by the Common Council under this Ordinance to perform towing services for or at the request of the City of Kenosha or its Police Department.

8. "**Storage lot**" shall mean premises which are subject to use, in accordance with local and state laws, rules and regulations, as a place to temporarily keep towed vehicles pending the final disposition thereof. Storage lots must be completely enclosed

with a six (6) foot high fence which is of such a nature as will offer reasonable protection for vehicles and their contents against theft and or vandalism. Any side of the enclosing fence which is viewable from a public thoroughfare must be constructed in such a manner as will screen from view the vehicles stored within the fenced enclosure. The storage lot shall provide outside storage for a minimum of thirty (30) vehicles and inside storage for a minimum of two (2) vehicles. The storage lot shall be located at the wrecker's (licensee's) principal place of business.

C. License Required. No person or wrecker shall engage in Class I, II and III tows within the City or at the request of the City, or its Police Department, without first having obtained a license therefor from the Common Council. Further, no person shall be assigned no preference tows without first being licensed hereunder. The acceptance of a license shall constitute a declaration and agreement of the licensee to perform licensed activities subject to the terms and conditions of this Ordinance. The acceptance of a license constitutes a commitment of the licensee to perform towing services hereunder and shall not be deemed a means of or authorize the business or practice of a designated licensee referring assignments to another license. A licensed tower may not relocate his principal place of business or storage lot without first obtaining the permission of the Common Council following review thereof by the Public Safety & Welfare Committee. City towing licenses may not be transferred or assigned without prior approval of the Common Council following review thereof by the Public Safety & Welfare and Finance Committees.

S. Determination of Need.

1. Finding. The Common Council of the City of Kenosha finds that on the effective date of this Ordinance that:

a. Towing services are being adequately performed in the City by the City licensed wreckers.

b. The granting of towing licenses over and above the actual need therefor will result in a deterioration of towing services in the City as a given volume of towing business is required to enable licensees to finance the high quality of equipment, facilities and services required under this Ordinance.

c. The licensing of wreckers over and above need will create problems in the administration and enforcement of this Ordinance, creating unnecessary expense for the City and providing a potential for a deterioration of towing services in the City.

2. Additional Licenses. No towing license applications will be accepted or processed under this Ordinance unless the Common Council first finds and determines that the then licensed towers are unable or unwilling to provide for the quantity and quality of towing service which is required to serve the needs of the City. Any wrecker who is otherwise able to comply with this Ordinance may request the Common Council to hold a hearing on the requirement of "need". However, such a hearing will not be held unless the wrecker requesting such a hearing alleges that the factors dictating need on the effective date of this Ordinance have materially and substantially changed thereafter.

This Ordinance shall become effective upon passage and publication. Existing licensees need not be relicensed prior to July 1, 1983. Existing licensees will have until July 1, 1983, to meet equipment and storage lot requirements hereunder. New licensees will have until July 1, 1983, to fence their storage lot.
