

# How to Properly Take Care of Your Butt:

**EXERCISE:** Exercise caution as to where you throw your butt!

**SQUATS:** If you see a butt on the ground, squat down and pick it up!

**WALK:** Walk to the nearest receptacle to dispose of your butt properly. IF NO RECEPTACLE IS AVAILABLE, field strip your cigarette and pocket the filter.

**ENCOURAGEMENT:** Encourage anyone you see dropping a butt on the ground to put it in its proper place.

**WEIGHTS:** Pull your weight. If we all do our part it makes for a cleaner city!
