

When a Permit is Required:

An erosion control permit is required when any of the following occur(s):

1. Land disturbing activity on a slope of greater than twelve percent (12%)
2. Land disturbing activity that involves excavation or filling, or a combination of excavation and filling
3. Land disturbing activity that disturbs more than one-hundred linear feet (100') of road ditch, grass waterway, or other land area where surface drainage flows in a defined open channel; including the placement, repair, or removal of any underground pipe, utility, or other facility within the cross-section of the channel.
4. Any new public or private roads or access drives longer than one-hundred, twenty-five feet (125')
5. Development that requires a subdivision plat as defined in the applicable local land division ordinance(s)
6. Any site where temporary storage of soil piles has been approved
7. Any site where it has been determined by the code official that significant erosion and sediment runoff may occur

Permit Application Submittal Requirements:

1. A completed erosion control permit application
2. Two (2) erosion control plans
