SisterCities
 INTERNATIONAL
 Connect globally. Thrive locally.

"The Sister Cities program is an important resource to the negotiations of governments in letting the people themselves give expression of their common desire for friendship, goodwill and cooperation for a better world for all."

Dwight D. Eisenhower

During a time of worldwide political and military tensions known as the Cold War, President Eisenhower reasoned that a path to peace could be created by building bonds between people of different cultures. In September of that year, he launched the People-To-People Program, a forerunner to today's nonprofit organization, Sister Cities International.

Sister Cities International brings citizens, local officials, and business leaders from U.S. cities together with people from foreign lands for the purpose of forging fellowship, respect and a celebration of each other's differences.

The City of Kenosha, along with its citizens, businesses and organizations, has been enriched through its participation in this program. Lifelong friendships have been created, as well as deep respect for the heritage and culture of its Sister Cities in France, Germany, Italy and the Philippines.

The City established the Sister Cities Association of Kenosha to strengthen our community's relationships with our affiliated cities through travel, hosting of our Sister City guests and correspondence with them.

A Valuable Tool To Mutual Understanding

SISTER CITIES ASSOCIATION OF KENOSHA

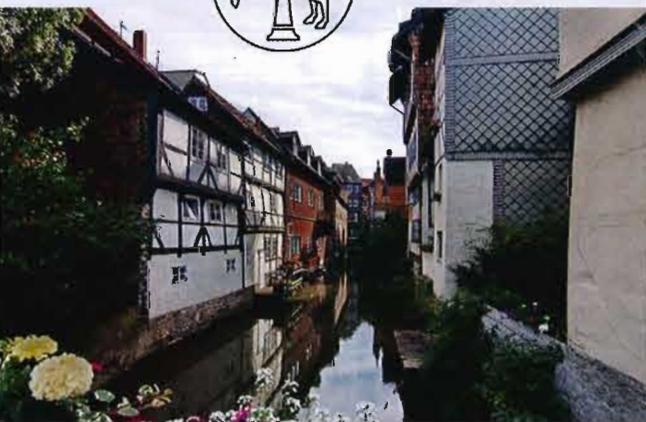

WE'VE GOT THE WHOLE WORLD IN OUR HEARTS

Kenosha and Wolfenbüttel, Germany forged a bond as Sister Cities in 1970. Since that time, residents of both cities have crossed the Atlantic many times to enjoy each other's company and culture.

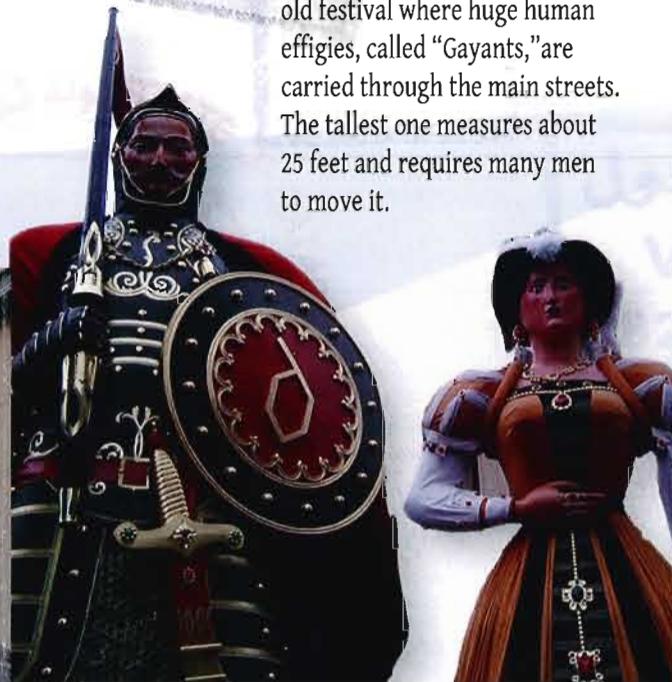

Wolfenbüttel lies in the northern part of Germany, between Harz and Heide in the heart of the German state of Niedersachsen. It is well-known for its herbal liquor, Jägermeister, its picturesque timbered buildings, and for housing one the best collections of European historical writings at its Herzog-August Bibliothek (Library).

WOLFENBÜTTEL

Douai, France lies along the River Scarpe in the French Flanders, not far from the Belgian border. The City of Kenosha and Douai became Sister Cities in 1981.

Douai boasts the largest belfry in Europe and the famous Douai translation of the Bible was produced there.

Each July, the City hosts a centuries old festival where huge human effigies, called "Gayants," are carried through the main streets. The tallest one measures about 25 feet and requires many men to move it.

Once known as the Athens of Italy, Cosenza is one of the most ancient cities of the Calabria region in the southern part of the country, where the Crati and Buesento rivers meet. Like these waterways, the City of Kenosha and Cosenza have come together, beginning in 1979, in goodwill and understanding between our citizens and government.

Cosenza is a town of stunning beauty, particularly in its old city, which features splendid manor houses, narrow pathways and medieval churches housing valuable art.

Its modern area features an open-air museum with sculptures by Salvador Dali, Emilio Greco and others.

Città di Cosenza

Northeast of Manila lies the most populous and richest city in the Philippines, Quezon City, named for its founder, President Manuel L. Quezon. World Bank has called its Central Business District, the "center of gravity of all commercial activities in the coming years." It is also well known for its entertainment district and its information technology.

In 1986, Kenosha Mayor John Bilotti and Quezon City Mayor Adelina Rodriguez forged a Sister City relationship between these two cities.

Quezon City contains the main campuses of the University of the Philippines and Ateneo de Manila University.

The Quezon Memorial Circle is the central park of the city, welcoming 8-12,000 people per day. It is a popular venue for cyclists in the Tour of Fireflies, an environmental advocacy event.
